MAAZ ULLAH

Civil Engineer Dam/Hydropower/Tunnel

About Me

As a Civil Engineering graduate with 5 years of experience, including 3 years working on major civil projects part-time while completing my degree and 2 years in Dam Hydropower projects in Tunnels, Spillway and Grouting. I specialize in tunneling (NATM, SEM, NMT), adits, shafts, slope stability, and structures. I blend technical expertise with an entrepreneurial spirit, bringing creativity and new ideas to enhance the prosperity and strength of a reputable organization, aiming to increase profitability through my skills. Passionate about learning and problem-solving using established analytical methods and engineering principles, I am proficient in MS Office and AutoCAD. I am ready to travel and relocate as needed.

EDUCATION

2019 - 2023

BSc Civil (Bachelor Degree of Civil Engineering)
University Of Engineering and Technology Peshawar
CGPA 3.7 out of 4.0

2016 - 2019

DAE Civil Technology (Diploma of Associate Engineering)
Board Of Technical Education Center Islamabad

AWARDS/ CIRTIFICATES

- AutoCAD, Revit
- Microsoft Office
- Blue beam, plan swift
- Survey Camp
- Experience Certificates
- Construction management

Affiliations

- Pakistan Engineering Council (License #
Civil/070518
- Washington Accord Accredited

WORK EXPERIENCE

5 year experience

2 year Dam Hydropower , Tunnel experience, Spillway

1) Site engineer Dam/Hydropower

May 2022– May 2024

Project: Construction of Concrete Fill Rock face Dam at District Mohmand. Total Power Capacity of 800 MW

Site engineer Tunnel Engineer

Excavation & Support Work

- worked at 18m Dia water diversion tunnel.
- supervised and inspected tunnel excavation using NATM, SEM, NMT, and also slope stabilization.
- Supervised tunnels and slope support work, including excavation, shotcrete spraying, and wire mesh installation.
- Managed the installation and grouting of SN, SD and mechanical rock bolts.
- Oversaw pre-excavation grouting in challenging geological conditions, including weathered and fractured rocks.
- Coordinated contractors for efficient execution in adits, shafts, slope stability and excavation.

Concrete Lining & Structural Work

- supervised and inspected concrete lining steel reinforcement.
- supervised and inspected concrete lining repair work.
- Supervised and inspected Contact/Backfill Grouting in lining.
- Supervised and inspected Gat Structure & chamber construction.
- Conducted supervision and inspection for quality control and Safety.
- Maintained records, resolved technical issues, and leadership.
- Prepared daily progress reports and monthly updates.
- Successfully achieved project goals through effective coordination.

Site engineer Spillway

- Studied corrections from senior engineers to learn and grow professionally.
- Assisted engineers with inspections of finished construction.
- Designed projects under the direction of experienced engineering professionals.
- Consulted with other disciplines and clients to resolve issues effectively.
- Collaborated with senior engineers on projects and offered insights.
- Maintained a positive work atmosphere by building relationships with coworkers, customers, clients, and management.
- Supervised construction activities (Concrete Works) of the Spillway Structure, including the Right Training Wall, Ogee Portion, Approach Slab, Upper Chute, Lower Chute, Upper Stilling Basin, and Side walls.
- Reviewed and checked Bar Bending Schedule (BBS) to evaluate contractor bills, check requests, etc.
- Prepared daily and monthly progress reports based on site activities.
- Attended client meetings for site-related issues and progress review.

2) Site Engineer Faisal Construction Company Pvt

2019–2022

4 years of experience with a contractor

- Managed construction activities on road projects, ensuring compliance with specifications and regulations.
- Coordinated effectively with consultants, clients, suppliers, and stakeholders to achieve project objectives.
- Collaborated with project teams to address technical challenges and ensure timely milestone completion.

Worked on diverse small-scale projects:

- Roads, Culverts, Small buildings, Retaining walls, Flood protection walls

Developed expertise in:

- On-site material management
- Various small-scale projects including culverts, roads, and streets
- Balancing full-time vocational training and university studies
- Maintained records, resolved technical issues, and leadership.
- Prepared daily progress reports and monthly updates.
- Successfully achieved project goals through effective coordination.
