Address: House CB 255/1, St 3, Lane 6, Gulshan e Nayab, Westridge III, 46000, Rawalpindi, Pakistan (Home)

● ABOUT ME

With a solid background as a Professional Civil Engineer and Quantity Surveyor, I possess four years of extensive experience across diverse projects. My responsibilities have encompassed site management, meticulous preparation and verification of bill of quantities, issuance of interim and final payment certificates, handling variation orders, conducting rate analysis, calculating quantities takeoff, managing claims, generating progress reports, establishing work schedules, and effectively breaking down construction activities for lump sum projects. Additionally, I excel in adapting my work approach to suit the nature and phases of projects, and I am adept at estimating and re-tendering tasks for ongoing or unfinished projects.

● WORK EXPERIENCE

01/11/2023 – CURRENT Islamabad, Pakistan

ESTIMATION ENGINEER MINHAS CONSTRUCTION CORP.

- Developed accurate cost estimates for construction projects, encompassing labor, materials, and equipment.
- Conducted precise quantity takeoffs from construction drawings.
- Assisted in bid proposal and tender document preparation, collaborating with subcontractors and suppliers.
- Created RFPs, RFIs, and comparison tables for vendor selection.
- Communicated with vendors on technical issues and specifications.
- Identified opportunities for cost optimization without compromising quality through value engineering.
- Monitored and controlled project costs, analyzed variations, and proposed corrective measures.
- Conducted risk assessments to identify and mitigate potential factors impacting project costs.
- Maintained effective communication with project managers, engineers, and stakeholders on cost-related matters.
- Utilized construction estimating software and tools (Planswift, CostX, Xactimate) for efficient estimation processes.
- Stayed updated on industry trends and methodologies for continuous improvement in cost estimation accuracy.
- Maintained comprehensive documentation of cost estimation activities.
- Conducted post-project cost analysis for refining future estimation processes.

07/11/2022 – 30/10/2023 Islamabad, Pakistan

LEAD ESTIMATOR ALMA1938 PVT LTD

- Pricing potential works to meet and fulfill the clients'/designers' requirements and to produce estimates from drawings and specifications of works
- Ensured estimates are completed in a timely and accurate manner
- Collated information from material suppliers to prepare accurate and competitive quotations
- Established and maintained working relationships with our suppliers and clients
- Reviewed drawings received to ensure design expectations and technical details align
- Acquired a thorough understanding of the tender process
- Revisited and requoted for projects where requested
- Supported value engineering exercises where required
- Participated in project reviews when required

- Weekly meetings with the Studio team to discuss inquiries and workload
- Occasionally attended client pre-construction meetings face-to-face or via Microsoft Teams, providing a confident level of technical support

Business or Sector Construction | **Department** Estimation

03/03/2020 – 28/02/2022 Islamabad, Pakistan

ASSISTANT QUANTITY SURVEYOR AND SITE ENGINEER RED SUN ASSOCIATES

- Collaborated seamlessly within interdisciplinary teams, contributing to the successful execution of project and construction designs. Guided projects through the entire lifecycle, from initial concept to production, ensuring precision at every stage.
- Orchestrated effective communication channels between Quantity Surveying, Construction, and Operations departments. Fostered synergy to streamline project processes and enhance overall efficiency.
- Crafted detailed functional specifications, design verification plans, and test procedures, showcasing meticulous attention to project intricacies. Demonstrated a commitment to comprehensive engineering analysis and embraced end-to-end project ownership.
- Applied a creative and adaptive mindset to design innovative solutions for ambiguous problems with ever-evolving requirements. Contributed to a dynamic problem-solving approach within the team.
- Employed AutoCAD, Revit, and other CAD tools to intricately design and review building layouts. Blended principles of civil engineering to create robust and efficient designs.
- Evaluated design, performance, and quantity takeoffs for building systems, taking into account equipment interactions with the building infrastructure. Applied a keen eye for detail to optimize project outcomes.
- Showcased strong organizational skills within collaborative team settings, enhancing overall project cohesion and contributing positively to team dynamics.

● **EDUCATION AND TRAINING**

27/08/2015 – 10/08/2019 Islamabad, Pakistan

BACHELOR OF SCIENCE IN CIVIL ENGINEERING International Islamic University, Islamabad

Website <https://www.iiu.edu.pk/>

05/05/2012 – 05/06/2014 Rawalpindi, Pakistan

PRE ENGINEERING Aslam Foundation Model College

Website <http://aslamfoundation.com/>

● **DIGITAL SKILLS**

Microsoft Office (Outlook, Excel, Word, PowerPoint) | AutoCAD | Planswift Software | Scheduling and coordination | Adobe Photoshop, Illustrator, AI | Internet browsing | Video Conferencing (Zoom, Teams, Skype, Webex) - Advanced | Web Research | AutoCAD, Revit Architecture, | Estimating Software and Taking Off (CostX) | BlueBeam Revu

● **LANGUAGE SKILLS**

Mother tongue(s): **URDU**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	B2	B2	C1	B2	B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

● **ADDITIONAL INFORMATION**

CONFERENCES AND SEMINARS

02/02/2018 – 01/08/2019 – Islamabad

To investigate utility of building information modelling (B.I.M) to improve productivity of the construction industry 1st Conference on Sustainability in Civil Engineering, 2019, Capital University of Science and Technology, Islamabad

PlanSwift Software for Quantity Surveying

Construction Estimating: Specifications and CSI Master Format

Transboundary Water Management: Issues and Conflicts

Development of Technical Team & Execution of Project

International Conference on Hydrology and Water Resources
