Summary

Professional Experience (9+ years)

Qualified and experienced Engineering Technologist (Civil) with 9+ years of practical knowledge in executing projects. Proficient in project management, cost estimation, site supervision, technical problem-solving and ensuring health, safety, and sustainability of the project.

Professional Experience Details

1. Serving at **Xircon Homes, Melbourne Australia** remote based (Jul-2022 to-date) Position **Construction Estimator**, where responsibilities are as under:

- Responsible for meticulously determining the costs of large-scale residential projects, with a primary focus on mass housing developments.
- Conduct detailed project assessments, collaborating closely with team members to analyze plans and specifications, ensuring accuracy in cost estimates.
- Utilize advanced construction software tools such as BuilderTrend, Constructor, and Nitro Pro to streamline and enhance the precision of the estimating process.
- Efficiently manage project schedules, strategically organizing tasks to ensure timely and seamless execution.
- Cultivate and maintain strong relationships with suppliers and subcontractors, negotiating for optimal pricing and guaranteeing the timely availability of materials essential for mass residential projects.
- Collaborate with the business development team to craft compelling and comprehensive bid proposals, demonstrating a nuanced understanding of client expectations in the context of mass residential developments.
- Provide strategic insights on cost-effective measures, balancing financial considerations without compromising the quality of the projects.
- Maintain vigilant oversight on project budgets for mass residential homes, ensuring financial adherence and resource optimization.

2. Served at **Elite Developers, I-8 Markaz, Islamabad** (Feb-2022 to Feb-2023) Position: **Site Engineer Civil**, where responsibilities are as under:

- Layouts.
- Bar Bending Schedules
- Quantity calculations & Quality Assurance.
- Ensuring compliance with technical design and drawings.
- Monitoring project packages to meet agreed specifications, budget, and timescale.
- Supervising contractor staff.
- Preparing site reports and paperwork.
- Providing technical advice and problem-solving at the site.
- Estimating costs and ensuring appropriate materials and tools are available.
- Reviewing contractor billings.

3. Served at **Elegant Design & Construction** Bahria Town Phase-7 Islamabad (**Feb 2021 to Jan 2022**) Position: **Coordinator Civil**, where responsibilities are as under:

- Managing all communication with clients for multiple projects and providing engineering and technical support to clients.
- Administering all civil engineering projects, preparing drafts and estimates of all fees, and drafting all proposals to be presented to clients and ensuring compliance with schedule and

budget while documenting all requirements.

- Analyzing and recommending appropriate strategies for all key management issues and interviewing various candidates according to the scope of all projects.
- Analyzing all development and implementing firm policies and procedures for various projects efficiently.
- Assisting departments in preparing engineering sketches for client proposals and maintaining records of all engineering drawings to provide appropriate figures.
- Collaborating with various departments to prepare a bill of materials and schedule for all engineering projects and preparing all formal drawings transmittals.
- Analyzing all drafts for the project in coordination with project personnel and revising all drawings as per client requirements.

4. Served at **Al-Husnain Construction**, Fateh Jang, a Contractor of PAEC (**Nov 2018 to Feb 2021**) Position: **Supervisor Civil (Concrete & Buried services) (Lining Department)**, where responsibilities are as under:

- Executing daily work plans as received from the site Engineer.
- Engaging manpower (labours, helpers, etc.) at different locations.
- Ensuring material availability at the working location.
- Coordinating between site management and manpower.
- Calculating the quantities (concrete, shutter, and other materials) required to cast the structural members as per the site plans.
- Preparing Bar Bending Schedule and billing.
- Preparing monthly consumption (material, fuel, manpower, etc.) report and daily progress reports.

5. Served at **Kissan Support Services Limited** a subsidiary of ZTBL H.O Islamabad, (**Feb 2015 to Nov 2018**) Position: **Supervisor Civil (Building & Works Department)** where responsibilities are as under:

- Verifying reinforcement at ongoing projects according to the design and specifications.
- Taking measurements during site visits for the verification of interim payments.
- Providing data and the latest position of work for weekly progress meetings.
- Ensuring the safety of working labor and staff during site operations.
- Maintaining miscellaneous assignments of drafting and designing to complete projects.
- Preparing Architectural, Structural, as well as Shop Drawings to make the work easier and fluent for labor/workers.
- Preparing drawings on AutoCAD to assist in projects.
