EDUCATION

Quaid-e-Azam College of Engineering and Technology

Sahiwal, PK

Bachelor of Science in Civil Engineering:

Nov 2018 – Aug 2022

- CGPA: 3.117 / 4.0
- Relevant Coursework: Structural Analysis, Steel Structures, Design of Structures, Geotechnical Engineering, Transportation Engineering, Hydraulics Engineering, Fluid Mechanics, Surveying, Engineering Economics, Project Planning.

PROFESSIONAL EXPERIENCE

Cost Estimation Solutions (*Junior Estimation Engineer*)

Lahore, PK. Feb 2024 – Present

- Read and interpret detailed architectural drawings to prepare accurate cost estimates.
- Specialized in CSI Division 4 (Masonry), Division 8 (Openings), Division 9 (Finishes), Division 10 (Specialties), and Division 11 (Equipment).
- Gained basic knowledge of drywall framing and concrete construction techniques.
- Utilized Plan Swift software for digital takeoffs and measurements to enhance estimation accuracy.
- Coordinated with project managers and architects to validate and adjust estimates as needed.
- Ensured all estimates complied with project specifications and industry standards.

G4S Digital Solutions (*Internee Estimation Engineer*)

Lahore, PK. Oct 2023 – Jan 2024

- Utilized Plan swift software to accurately estimate material quantities for construction projects.
- Mastered Plan swift features including Line, Area, Count, and Segment commands to accurately calculate material quantities.
- Skilled in exporting quantities from Plan swift to Excel for further analysis and reporting purposes.
- Analyzed architectural and engineering drawings to extract relevant information for estimation purposes.

AS Enterprises (*Assistant Site Engineer*)

Lahore, PK. Aug 2022-Nov 2022

- Assisted in the construction management of a large-scale shopping mall project.
- Conducted site inspections and prepared daily progress reports.
- Utilized AutoCAD and other software for reviewing and modifying project drawings.
- Managed materials and equipment logistics to ensure timely project completion.

ACADEMIC PROJECT

Impact of using Primavera Baseline Plans and Revision of Reports, A case study of Lahore Eastern Bypass Project

- Conducted a comprehensive case study on the Lahore Eastern Bypass Project, focusing on the use of Primavera for project management.
- Developed and analyzed baseline plans using Primavera to monitor project progress and performance.
- Implemented revisions and updates to project reports to reflect real-time data and changes in project scope.
- Evaluated the impact of accurate baseline planning and timely report revisions on project efficiency, cost control, and schedule adherence.

Honors and Awards

Academic Scholarship

- Received full merit-based academic scholarship from RPS&C, M.B. Din March 2016- March 2018

Online Courses

- AutoCAD for drafting, design, and modeling tasks specific to civil engineering projects.
- Plan swift for accurate material quantity estimation and project planning.

SKILLS

Technical: AutoCAD, Plan swift & MS Excel, Primavera (Basic)

Interests: Adobe Illustrator, Video Editing, Cricket

Language Proficiency: English(Conversational)
