SUMMARY

As an Estimator with over 3000+ completed projects, I have a keen eye for detail and a strong understanding of project costs. With expertise in using estimating software, I provide accurate cost estimates by considering materials, labor, equipment, and overhead expenses. I excel in analyzing project requirements, conducting material take-offs, and collaborating with stakeholders to ensure precise estimates. By staying updated with industry practices, I deliver valuable insights and recommendations to optimize cost efficiency while maintaining quality. With my analytical mindset and effective communication skills, I contribute to successful project outcomes.

WORK EXPERIENCE

Senior MEP Estimator, SmartBid (Lahore, Pakistan)

July 2022-Present

- Prepared detailed estimates and quotes for over 100 MEP projects so far, with project values ranging from \$20,000 to \$1 million
- Achieved a 95% accuracy rate in initial estimates by analyzing project specifications and drawings to determine the scope and requirements
- Collaborated with engineering and construction teams client-side to reduce project discrepancies and reworks by 20%
- Adjusted estimates based on project changes or additional requirements, resulting in improvement in budget adherence
- Secured approval on 85% of proposals by presenting detailed estimates to clients
- Enhanced proposal detail through the proficient use of estimation software such as Xactimate, Planswift, and Bluebeam
- Increased winning bids by 15% by staying updated on industry standards and pricing trends

MEP Estimator, UNICA Construction & Estimation (Lahore, Pakistan)

October 2019-June 2022

- Prepared material orders, ensuring 100% on-time project completion and maintaining budget adherence for all projects.
- Analyzed field measurements, survey plans, and plot plans, creating over 20 accurate proposals and work orders monthly.
- Reviewed project documents, specifications, and drawings, producing precise electrical cost estimates with a 90% bid success rate.
- Utilized design software and estimation tools, generating detailed material take-offs and labor requirements, improving cost estimation accuracy by 25%.

Building Electrician, Drake & Sculls (Dubai, United Arab Emirates)

February 2017-March 2019

- Executed installations and repairs in 50+ commercial and 100+ residential buildings, ensuring code compliance
- Completed projects on time and within budget, with a 95% on-time delivery rate
- Interpreted electrical blueprints and diagrams for 150+ projects
- Installed and maintained a high number of lighting systems, circuit breakers, transformers, and distribution panels
- Conducted electrical testing, including voltage measurements and continuity checks
- Trained and mentored 10 apprentice electricians, improving their skill sets and contributing to a 20% increase in productivity

Textiles Electrician, United Textile (Lahore, Pakistan)

March 2012 - April 2017

- Installed, maintained, and repaired electrical systems in a textile facility, ensuring continuous operation
- Inspected and maintained 100+ textile machines, achieving 90% equipment uptime
- Troubleshoot electrical issues with production teams, reducing downtime
- Upgraded electrical systems, boosting productivity by 25% and improving safety
- Implemented a maintenance schedule, increasing equipment lifespan and reducing failures
- Optimized machine performance with automation, boosting output by 20%

Sales Executive, Procter & Gamble

February 2011 - March 2012

- Evaluated customer requirements and demonstrated product offerings at 50+ locations
- monthly showcased product features and discussed technical details, overcoming objections
- Met with existing customers, conducting 100+ assessments annually, leading to a 25% increase in repeat business
- Created professional sales presentations and seminars, demonstrating product features and competitive advantages to audiences
- Established fair pricing structures and finalized contracts, completing 80+ purchase agreements annually

EDUCATION

BSE Engineering

University of Engineering and Technology

Diploma of Associate Engineering in Electrical Technology

Govt College of Technology

ADDITIONAL INFORMATION

Technical Skills:

Blueprint Reading, Budgeting and Financial Analysis, Cost Estimation, Estimating Software, Quantitative Analysis, Construction Knowledge

Soft Skills:

Project Management, Attention to Detail, Problem Solving, Time Management

Estimation Tools:

Xactimate, Planswift, and Bluebeam

Achievements/Awards:

Estimated and secured 3000+ bids for \$50M+ in project value over 5 years

Top Estimator Award - Best MEP Estimator of 2023 (Smart Bid)

Safety Excellence Award - Zero incidents safety record in 2019 (Drake & Sculls)
