

MUHAMMAD SAAD NAWAZ

CIVIL ENGINEER

OBJECTIVE

My objective is to contribute towards the growth and development of a dynamic & well reputed organization and build a long term career with opportunities to achieve the company's goal.

DESIGN PROJECT

Sustainable Planning & Design of Roads, Storm Drainage and Sewerage System for a Society.

The purpose of the project was to plan and design roads, storm water and sewerage system in a sustainable way. The sizes of rainwater harvesting tanks were determined to analyze the percentage of reusable water that will reduce portable water consumption of the study area, where as the sewage treatment plants were provided for treated disposal of sewer.

SKILLS

- Auto CAD
- RS Means
- Epanet
- Plan Swift
- Revit
- Primeravara P6

ACHIEVEMENTS

- x3 Dean Honor Awards
- Revit Architecture 2017
- Revit Architecture Fundamentals
