WORK EXPERIENCE

MEP Estimator, World Estimating Llc

Feb 2024 - Present

- Analyzed project blueprints, specifications, and other documentation to prepare accurate cost estimates for HVAC and plumbing systems.
- Collaborate with project managers, engineers, and subcontractors to ensure cost-effective solutions that meet project requirements.
- Utilize industry-standard software such as Planswift to create detailed estimates and proposals.
- Communicate effectively with clients to address inquiries and negotiate pricing.

Trainee Engineer, Penta-Square Project DHA Lahore (PEC On Job Training Program)

Jul 2023 - Jan 2024

- Gained hands on experience related to operations of different HVAC systems, chillers, pumps, boiler genset generators and cooling towers
- Implemented preventive maintenance strategies for genset generators.
- Assisted senior engineers in conducting site surveys, equipment selection, and performance analysis.
- Contributed to the development of HVAC design documents, including drawings, specifications, and calculations.

Internee, Mughal Engineering Services

Aug 2021 - Oct 2021

- Learned various processes involved in cable manufacturing, including wire drawing, annealing, stranding, insulation, and layering.
- Conducted quality tests such as stranding formation, insulation and sheath thickness, and wire diameter.

ACADEMIC EXPERIENCE

- **Fabrication:** Acquired practical skills using Lathe and Milling Machines for the preparation of dog-bone specimens.
- **Testing:** Performed Tensile, Impact and Brinell Hardness tests on dog-bone specimens for the measure of correspondence strengths of alloys.
- **Heat Treatment:** Implemented heat treatment and aging processes, resulting in significant increases in ultimate tensile strength and hardness.
- **Design and Simulation:** Designed 2D and 3D models of dog-bone specimens using SolidWorks and conducted Tensile Analysis on ANSYS.

EDUCATION

Bachelors of Science in Mechanical Engineering

Oct 2018 - Jul 2022

University of Sargodha

- CGPA = 3.31.
- **Relevant Coursework:** Thermodynamics, Engineering Mechanics, Fluid Mechanics, HVAC, Mechanics of Materials, Machine Design, I.C. Engine, Mechanical Vibrations, Project Management.

ADDITIONAL INFORMATION

- **Technical Skills:** Planswift, Auto CAD, Microsoft Office, Problem Solving, Analytical Thinking.
- **Soft Skills:** Team Work, Adaptability, Leadership Qualities.
- **Languages:** Urdu, English
- **Certifications:** Registered Engineer (RE) License
