Personal Details:

13/Oct/1997 • Pakistani • Male • Single

Mechanical Engineer

Highly motivated and talented professional with a bachelor's degree in mechanical engineering from University of Engineering and Technology, Taxila. Capable of conducting research to identify problems and develop appropriate solutions for improvement. Committed to utilize academic knowledge and diverse skills to drive positive changes and convert them into valuable experience. Demonstrates the ability to work independently and cooperatively as a team player to achieve organizational objectives in fast-paced and multitasking environments.

Areas of Expertise

- PlanSwift
- SolidWorks
- Project Management
- Primavera P6
- AutoCAD
- Quality Assurance
- Cost Estimation
- Team Collaboration
- Conflict Resolution

Education

Bachelor of Science in Mechanical Engineering GPA (3.25/4)

University of Engineering and Technology, Taxila, Pakistan

Higher Secondary School Certificate

Govt. Degree College, Zafarwal, Pakistan

Experience

Build Estimation, Apr-2024 to Jun-2024

Trainee Engineer

- Assisted in creating cost estimates for MEP projects, learning to ensure they matched project needs.
- Worked closely with experienced engineers to understand project details and develop accurate estimates.

Microperfs, Feb-2023 to Mar-2024

Project Manager

- Developed and distributed comprehensive project plans for effective execution.
- Led and coordinated project operations with a focus on achieving high-quality results, meeting deadlines, and optimizing costs.

- Managed the entire project lifecycle, overseeing the planning and design stages to project completion.
- Maintained effective communication with team members, collaborating with various stakeholders to ensure project success.

HKB Enterprises, Feb-2020 to Apr-2020

Management Trainee Engineer

- Created 3D models and drawing sheets for mechanical parts using SolidWorks.
- Checked and ensured the quality of manufactured parts, maintaining high standards.
- Maintained consistent quality across all manufactured parts.
- Prepared and presented weekly progress reports on the projects.

Fauji Fertilizer Company, Aug-2018 to Sep-2018

Internee Engineer

During my internship, I enabled the decision-making process by formulating and presenting reports and inspection requests to senior management. Delivered hands-on assistance to MEP manager in streamlining and achieving daily targets related to mechanical at the site.

- Underwent a detailed study of the Working Principle and construction of Equipment and Machinery employed in the Urea and Ammonia Section.
- Understood Analysis of Pumps, Compressors, Turbines, Boilers, Cooling Towers, and Valves.
- Collaborated with experienced engineers to troubleshoot and address operational issues.

Research Work:

Title: The Influence of Silica Filler on Wear Behavior of Epoxy Composite Coatings for Sliding Tribo-Pair.

- Investigated the impact of silica filler on the wear behavior of epoxy composite coatings for sliding tribological pairs.
- Conducted in-depth research on the performance and characteristics of epoxy composite coatings under various sliding conditions.
- Utilized advanced testing methods and equipment to evaluate the tribological properties and durability of the coatings.

Projects:

- Design and Fabrication of Exoskeleton for upper limb.
- Complete economic analysis of Sukki Kinari hydropower Project.
- Developed the control system for self-stabilizing two-wheeler and smart street lightening.
- Developed automation system for railway crossings.
- Development of Solenoid Engine as an alternative to conventional engines.

Social Activities

- International Member of American Society of Safety Professionals.
- Part of Umeed-e-Subh (Social welfare society), organized charity distributions.
- Social worker at ALMS 360 welfare society as head of the content writing team under the project uphold the orphans.
- Completed 25 hours of community service by serving as a volunteer in ALMS 360 Welfare Society.

Interests and Activities

Book Reading, Cricket.
