Muhammad Bilal

Deputy Manager of MEP Department

Profile

As an MEP Deputy Manager at AESOM, I supervise mechanical, electrical, and plumbing projects, utilizing Planswift software and blueprint reading for precise takeoffs and resource management. I lead an assistant manager and team leads, ensuring high standards of project execution and stakeholder satisfaction.

With an associate degree in electrical engineering, I have a strong foundation in electrical as well as mechanical & plumbing estimation and design. I have successfully completed multiple residential, commercial, industrial, and process plant projects in the USA, UK, and Canada, delivering comprehensive quantity assessments that streamline project planning and budgeting. I am passionate about driving excellence in construction across various domains and delivering value to clients and stakeholders.

Education

DAE, Associate Engineering In Electrical Sep 2015 - Sep 2019
PBTE

Through my Associate degree in Electrical Engineering, I acquired a comprehensive understanding of electrical systems, circuit analysis, and electrical safety. I developed strong skills in electrical design, system planning, and technical analysis, with a focus on problem-solving and technical documentation to support project development and execution.

Courses

08 Month Course In Repair & Maintenance Of Electrical Appliances Trade Jan 2016

- * Basic Electrical Theory
- * Domestic Wiring
- * Electrical Appliances Repair
- * Elec. Motor & 3-Phase Wiring
- * First Aid for Electric Shock

Employment

Deputy Manager of MEP Department | MEP coordination | MEP Estimation Mar 2024 - Present

AESOM, Lahore, Punjab, Pakistan

In my new position, I'm responsible for assisting in the estimation process for MEP projects, ensuring accuracy, compliance, and efficiency throughout. My duties include analyzing project specifications, conducting quantity take-offs, preparing comprehensive cost estimates, and reviewing intricate drawings and plans.

I'm excited for this opportunity to further develop my skills and make meaningful contributions to our organization's success in the dynamic field of MEP estimation.

Assistant Manager of MEP Department

Jan 2024 - Feb 2024

AESOM, Lahore

As an MEP Assistant Manager my responsibility involve assisting in preparing takeoff for mechanical, electrical, and plumbing systems in construction projects, analyzing project specifications and drawings, conducting material takeoffs, collaborating with senior managers and other team members, and maintaining accurate records of estimates and project data. Additionally, I also involved in reviewing jobs & takeoff, discussion of query, and supporting the overall estimation process.

MEP Team Lead

Jan 2023 - Dec 2023

AESOM, Lahore, Punjab, Pakistan

As an MEP Lead, I oversee the implementation of mechanical, electrical, and plumbing systems across projects. I coordinate with multidisciplinary teams to ensure seamless integration, manage schedules, and control budgets. My role involves providing technical guidance, resolving issues, and maintaining effective communication with stakeholders to ensure high-quality project execution and successful outcomes

Electrical Team Lead

Apr 2022 - Jan 2023

AESOM, Lahore, Punjab, Pakistan

As an electrical team lead, I oversee the design and maintenance of electrical systems, ensuring adherence to specifications and standards. I manage a team of junior estimators, providing guidance and ensuring deadlines are met. Additionally, I collaborate with architects and civil estimators to align electrical requirements with project goals.

Senior Electrical Estimator

Apr 2021 - Apr 2022

International Estimating Services LLC, Lahore, Punjab, Pakistan

Experienced electrical estimator working in a USA, UK & Canada market place. Doing residential, commercial, industrial, process plants & lift stations takeoff. Deeply knowledge of planswift. Dedicated, enthusiastic and highly skilled professional in project estimation & management. And deep knowledge in DIV 26, 27 & 28 having tiniest detail to wiring as well.

Junior Electrical Estimator

Dec 2020 - Mar 2021

International Estimating Services LLC, Lahore, Punjab, Pakistan

As a junior electrical estimator, I analyzed project documents and specifications, focusing on commercial and residential projects. I utilized PlanSwift software for detailed takeoffs, including fixture counts and wiring measurements. I organized and exported data into Excel, finalizing the Bill of Quantities (BOQ).

Certificates

MEP Trainer Certificate for (Graduate Training Program)

Jun 2023

Completed a three-week MEP Trainer Certificate through a Graduate Training Program, enhancing my skills in mechanical, electrical, and plumbing systems. This certification equips me to train and mentor others in MEP disciplines, complementing my technical background and strengthening my ability to lead and support project teams effectively.
