PEC No. CIVIL/57618

OBJECTIVES

Dedicated Civil Engineer with expertise in cost estimation, utilizing software tools like Planswift and Bluebeam, Cubit seeking a challenging role as an Estimator to contribute to construction projects by providing accurate and efficient cost assessments.

PROFESSIONAL CAREER SUMARRY

Experienced Civil Engineer with a strong background in cost estimation and project management. Proficient in industry-standard software, including **Planswift and Bluebeam**, for precise quantity take-offs, estimating, and bid preparation. Demonstrated ability to analyze construction plans and specifications to develop comprehensive project cost estimates. Strong understanding of construction materials, methods, and industry trends. Exceptional attention to detail, problem-solving skills, and a commitment to delivering cost-effective solutions.

ACADAMIC

PROFESSIONAL EXPERIENCE

Value Engineering, Islamabad (February 2022-Present)

Position: **Construction Estimation Engineer**

Having 2+ years of professional experience in GC, USA & Australian projects

Construction Estimation Experience:

- **Quantity estimation** for Residential and Commercial projects by using *Planswift*.
- Utilized **Planswift and Bluebeam software** to perform detailed quantity take-offs from project plans and specifications
- Developed accurate and **comprehensive cost estimates** for construction projects, including materials, labor, equipment, and overhead costs.
- Worked on **GC, USA and AUS** projects, performed a details & comprehensive estimates including **client Estimating Template** as well.
- Collaborated with project managers and procurement teams to ensure timely and cost-effective procurement of materials and subcontractor services.
- Participated in pre-bid meetings, site visits, and contractor/vendor negotiations to refine project estimates and budgets.
- Maintained a database of historical cost data and regularly updated it to improve estimating accuracy
- Preparation of **Bill of Quantities (BOQs)** of projects according to the current prices

SOFTWARE SKILLS

- Planswift
- Primavera P6
- Revu Bluebeam
- MS Office & Word & Excel
- Cubit
- AutoCAD

Internship at Frontier Work Organization (FWO). Development of Kartarpur Project (July, 2019–September,2019)
Position: Assistant to Site Engineer.

- To monitor and supervise the workman's and work
- Ensure the specifications of work according to drawings
- Assisted in Preparation of Bill of Quantities (BOQs)
- Interpretation of Auto Cad drawings onto the ground
- Gained experience in blueprint reading, as well as preparation of plans.

EDUCATIONAL ACCOMPLISHMENTS

Analyze the structures, design of structures, construction management, inspect soil conditions, and surveying.

1. Feasibility Study of Large Dams in Pakistan, Final Year Project

- Carried out extensive research showing necessity of dams in the country and their potential benefits. Find out the water management system in Pakistan

2. Design of Structures: Design & analysis of slabs, Beams, Columns, Footings & Retaining walls by ACI code and using ETABs Software

3. Design of Roads and Runways: Design of Flexible pavements and roads by AASTHO design & Asphalt Institute method. Flexible and Rigid Airport pavements Design by FAA Airport Pavement Design Method

4. Construction Management: Engineering practices of construction management using Primavera P6 & Estimation methods of best and fast ways

4. Architectural Planning of House: Drafting and designing of a 2200 and 2800 SFT residential buildings comprising of basement, ground and first floor

5. Surveying and Soil Testing: Formation of contours (surveying) & Reduced level of natural ground (Leveling). Soil conditions (soil type, grade, classification, specific gravity, etc.)

SKILLS

- Communication Skills
- Planning before Execution
- Quick Learning
- Problem Solving
- Team Player
- Adaptability
- Creativity
- Active Listening

Extra-Curricular Activities

- Adobe ILLUSTRATOR
- Sports (Cricket, Badminton)
- Horse Riding

LANGUAGES

- GOOD IN ENGLISH
- FLUENT IN URDU AND PUNJABI
