

FAISAL AFZAL

CIVIL ENGINEER | GEOTECHNICAL ENGINEER | STRUCTURAL ENGINEER

Address: Johar Town Lahore Punjab • **Phone:** + (92) 3368663862 • **Email:** faisalkhan1532001@gmail.com

• **LinkedIn:** www.linkedin.com/in/faisal-afzal-b732b3316

EDUCATION

UNIVERSITY OF ENGINEERING AND TECHNOLOGY, PESHAWAR

Sep 2020 – Jun 2024

Bachelor's in civil Engineering

CGPA = 3.20/4.00

Structural Eng., Geotechnical Eng. Transportation Eng. Cost Estimation and Cost Control, Hydraulics Eng., Hydrology, Concrete Technology, Leveling and Surveying.

PROFESSIONAL EXPERIENCE

BIM MODELLER

September (Present)

CAPABILITIES TECHNICAL SKILLS AND TRAINING CENTER LAHORE

- Created and managed BIM models using Autodesk Revit and Navisworks
- Coordinated with architects, engineers, and contractors to ensure design accuracy
- Developed and implemented BIM standards and protocols
- Conducted clash detection and resolution
- Collaborated on construction documentation and data management

INTERNEE ENGINEER

5th July 2023 to
10th Oct 2023

RELIABLE ENGINEERING SERVICES (Pvt.) Ltd. & JHK CONSTRUCTION COMPANY

- Prepared comprehensive reports on project status updates, budget analysis and risk assessments For seniors management review
- Computed load and grade requirements, material stress factors, and water flow rates to determine design specifications.
- Adhered to budget constraints while maintaining high-quality workmanship on all engineering projects.
- Reviewed calculations and analytical data to maintain accuracy of technical reports.
- Conducted site surveys to gather essential data for accurate planning and execution of engineering projects.
- Ensured quality standards were met through rigorous testing and adherence to industry guidelines.
- Continuously developed professional skills through ongoing training courses, seminars, and workshops relevant to the engineering industry.
- Optimized material usage, reducing waste and lowering overall project costs.

SURVEYOR

27th Jan 2024 – 16th Feb 2024
Abbottabad

SURVEY CAMP

Precision Mapping and Geospatial Analysis for Varied Infrastructure Endeavors

- (1) **Traversing Precision:** Employed meticulous traversing techniques to establish high accuracy control networks, ensuring reliable spatial data for expansive project domains.
- (2) **Fly Leveling Expertise:** Applied advanced fly leveling methods to acquire precise elevation data, facilitating comprehensive topographic insights critical for engineering decisions.
- (3) **Contouring Proficiency:** Utilized cutting-edge contouring approaches to transform field data into detailed topographic maps, unveiling nuanced terrain morphology.
- (4) **Triangulation Mastery:** Executed robust triangulation strategies, establishing geodetic networks vital for large-scale project triangulation.

Geometric Insights and Infrastructure Optimization through Profiling

- (1) **Long Section Analysis:** Devised intricate long section assessments for roads, canals, and drains, generating geometric profiles crucial for informed design enhancements.
- (2) **Cross-Section Techniques:** Employed advanced cross-sectional methods to capture project landscapes, offering vital insights for drainage and roadway systems.
- (3) **Road Profiling Acumen:** Applied sophisticated road profiling techniques to enhance road functionality, ensuring efficient vehicular mobility.

Quantitative Precision for Resource-Efficient Solutions

- (1) **Quantification Expertise:** Conducted precise quantity calculations, accurately estimating material requirements for effective resource allocation and budgeting.

RELEVANT SKILLS

- **Computer skills:**

Microsoft Office / Microsoft Excel / Microsoft Word / Microsoft Power Point / AutoCAD / BIM Revit / SAP2000 / Civil 3D / Geographic Information Systems (GIS) / Primavera P6 / MS project / PlainSwift basic level / Bluebeam basic level.

- **Technical Skills:**

Structural Analysis and Design / Quantity Estimation / Research / Problem-Solving / Budget Optimization / Bar Bending Schedule / CAD Planer / QA Quality Assurance / QC Quantity control.

- **Professional/Social Skills:**

Teamwork / Project Management / Communication / Leadership / Organization / Problem-solving / Attention to detail / Time Management.

- **Language Skills:**

English / Urdu / Pashto.
