WORK EXPERIENCE

Habib Rafiq (PVT.) LTD / Internship

July 2021 - August 2021

- Worked with senior engineers and project managers to assist in the execution of various construction activities.
- Conducted regular site inspections to ensure that construction work was being carried out in accordance with design specifications and safety regulations.
- Actively monitored the progress of construction work, keeping detailed records of daily activities and work completion

EPDC (IEP) / Internship

July 2022 - August 2022

- Participated in problem-solving sessions, contributing ideas and solutions to overcome engineering challenges.
- Acquired knowledge of project initiation, regulatory compliance, and permitting processes.

RESEARCH SKILLS

Final Year Project

- Carried out an in-depth research project focused on identifying and analyzing the factors contributing to heavy metal contamination in road dust within Lahore City.

RELATIVE COURSEWORK

- Hydraulic Engineering
- Construction Management
- Surveying and Mapping
- Transportation Engineering
- Geotechnical Engineering
- Structural Analysis and Design

STRENGTHS

- Adaptability
- Analytical Skills
- Attention to Details
- Effective Communication
- Creativity
- Teamwork and Collaboration
