

PROFILE

Results-driven Electrical Engineering student with a solid foundation in core subjects such as Circuit Analysis and Design, Power Systems, Control Systems, Electronics, Digital Signal Processing, and Electromagnetic Field Theory. Adept at applying theoretical knowledge to practical solutions. Proven ability to analyze complex problems, develop innovative solutions, and collaborate effectively with multidisciplinary teams. Proficient in LTspice, MATLAB, Microsoft Word, and Microsoft PowerPoint. Eager to contribute to projects and drive innovation in the field of Electrical Engineering.

HOBBIES

1. Traveling
2. Playing games
3. Animal care

KHAWAJA MUHAMMAD ABDULLAH

Electrical Engineer

EDUCATION

Grafton College of Science

2020 - 2024

The Bachelor of Science in Electrical Engineering program provided me with a comprehensive understanding of electrical principles and their practical applications. Key coursework included:

- Circuit Analysis and Design
- Power Systems
- Control Systems
- Electronics
- Digital Signal Processing
- Power System Protection

Throughout my studies, I actively participated in hands-on projects and laboratory experiments, enhancing my proficiency in LTspice, MATLAB, and other industry-standard software tools. This enabled me to gain valuable experience in analyzing electrical circuits, designing systems, and troubleshooting complex issues. My education has not only equipped me with technical knowledge but has also honed my critical thinking and problem-solving abilities.

SKILLS

1. LTspice
2. Microsoft Word
3. Microsoft PowerPoint
4. MATLAB
5. Interpersonal skills
6. Management skills
7. Time management
8. Result-oriented
9. Counting
