

SYED ANUS HASSAN ALI NIZAMI

+92 3182272816 s.anashassan1@gmail.com Karachi, Pakistan linkedin.com/in/shassan7

EDUCATION

Sir Syed University of Engineering & Technology
Bachelor of Science (BS) in Civil Engineering

Nov 2019 – Feb 2024

EXPERIENCE

Engineering Consultants International (Pvt) Ltd.
Assistant Engineer

May 2024 – Sep 2024

- Determination of pavement distresses and providing the quantities and severities of each distress as per the ASTM standards.
- All the components of pavement distress data processing and calculating the Pavement Condition Index (PCI) include Key-codes, and PAVER Distress Templates.
- Checking the consistency in distress classification, severity assignment and quantification during processing.

Abaseen Construction Company [Private] Limited
Civil Engineering Intern

Sep 2023 – Sep 2023

- **Site Supervision:** Supervised construction activities on-site to ensure compliance with project specifications and safety standards, under the supervision of project manager and site engineers.
- **Labour and Resource Management:** Managed labour and resources efficiently to optimize productivity and maintain project timelines.
- **Quantity Estimations:** Performed quantity estimations to determine the required materials and resources for various construction tasks.
- **Preparation of BBS:** Prepared Bar Bending Schedules (BBS) to detail the reinforcement requirements for structural elements.
- **Planning of Activities:** Assisted in planning and scheduling of construction activities to ensure smooth project execution and timely completion.

SKILLS

➤ TECHNICAL SKILLS

- Proficient in AutoCAD for precise architectural and engineering drafting.
- Experienced in using ETABS for structural analysis and design, ensuring building stability.
- Skilled in Microsoft Office suite for creating reports, spreadsheets, and presentations.
- Delving into Primavera P6 for project planning, scheduling, and management.

➤ SOFT SKILLS

- Demonstrated adaptability in handling diverse tasks and projects effectively.
- Strong team player, collaborating with colleagues to achieve project goals and deadlines.
- Proficient scheduling and assigning tasks within a team environment, ensuring efficient project workflow and timely completion.

PROJECT

FYDP on “MOTORCYCLE SIMULATION ANALYSIS FOR ROAD SAFETY PARAMETERS”

- Objectives included exploring motorcycle simulator technology, identifying common rider mistakes through simulation, and raising awareness about responsible riding practices.

- Methodology involved acquiring a simulator from Atlas Honda Pakistan, exploring its functionalities, organized the mega "**SAFE BIKE RIDING**" event for data collection, which was graced by the presence of chief guest Dr Saif-ur-Rehman, Administrator Karachi. Additionally, we participated in the Education Expo, where Governor of Sindh Mr. Kamran Tessori also visited at our stall, and in the Pakistan Auto Show, analysing simulator reports on speed, braking, and rider behaviour, and formulating recommendations for road safety enhancements.
- Achievements include securing **2nd position** in Civil Engineering Department's Project Exhibition and contributing insights into motorcycle safety dynamics.
- Project made an impact by promoting responsible riding practices and raising awareness about road safety among riders.

CERTIFICATIONS

- **Oracle Primavera P6 Professional Course**
Smart PM Training
- **AutoCAD Training Certificate**
DigiSkills.pk
- **Organized Mega Event "SAFE BIKE RIDING"**
Atlas Honda LTD
- **Awareness Program on Quantity Surveying/Cost Engineering**
