KDA Scheme No. 33, Karachi, Pakistan

## Summary

Performing engineering duties in planning, designing, and overseeing construction and maintenance of building structures, and facilities, such as roads, railroads, airports, bridges, harbors, channels, dams, irrigation projects, pipelines, foundations, and water and sewage systems.

## Skills

AutoCAD | Building Surveying | CAD Tools | Civil Design | Civil Design Knowledge | Civil Planing | Civil Society Development | Civil Supervision | Civil Supervistion | Communication Skills | Construction Engineering | Construction Site Management | Engineering Drawings | Labor Management | Leadership Skills | Persuasion Customer | Problem Solving Identify and resolve any issues or conflicts that arise during construction. | Quantity Surveying | Supervision Skills | Survey Design | Technical Skills

## Experience

Jun 2023 - Jun 2024

Construction Supervisor Civil

Uch Power Plant Construction Company, Dera Murad Jamali, Pakistan

- **Structural Design and Analysis** Civil engineers design and analyze the structures that support transmission lines, including towers, poles, and substations. They ensure these structures can withstand environmental loads such as wind, earthquakes, and ice.
- **Substation Design and Construction** They are involved in the planning, design, and construction of substations, ensuring that foundations and structures are sound and meet safety standards.
- **Route Planning and Surveying** Civil engineers assist in selecting optimal routes for transmission lines. They conduct land surveys, analyze terrain, and assess environmental impact.
- **Construction Management** During the construction of transmission lines and substations, civil engineers manage the construction process, ensuring that projects are completed on time, within budget, and according to specifications.
- **Geotechnical Analysis** They assess soil conditions to determine the appropriate foundation designs for towers and substations. This is critical in preventing structural failures.
- **Environmental Compliance** Civil engineers ensure that the construction and operation of transmission infrastructure comply with environmental regulations, including minimizing the impact on wildlife and vegetation.
- **Maintenance and Inspection** They are involved in the ongoing inspection and maintenance of transmission infrastructure, ensuring the safety and reliability of the network over time.

- Oct 2019 - Apr 2023 ○ **Site Civil Supervisor**  
Engro Enfrashare Pvt Ltd., Karachi, Pakistan
- Follow up the Execution of going as per specification, Local requirement,.
  - CO ordinate with client, consultant any design issue.
  - Site instruction and necessary action closing out.
  - Review of drawing and installation instruction.
  - Review the Construction plan layout and ensure its implementation at the Site,
  - Supervision &
  - Execution of R.C.C foundation, columns, beams & roof slab, Supervision &
  - Execution of finishing works.
  - Coordination with Client & main Contractor, Coordination with concrete supplier
  - and Independent
  - testing laboratory. Attended HSE Health, Safety & Environment
  - Preparing bar bending schedule, quantity and cost estimation as per drawings.
- Feb 2017 - Sep 2019 ○ **Site Engineer Civil**  
Huawei Technologies Pakistan Ltd, Karachi, Pakistan
- Detailed knowledge of Building construction, including reinforced concrete.
  - Ability to check the reinforcement detailing as per the drawing.
  - Physically able to do on-site inspections.
  - Excellent written and oral communication skills with attention to detail.
  - Ability to work in a progressive and challenging environment.
  - Oversaw engineering efforts during field operations, providing guidance on compliance with business goals.
- Aug 2015 - Jul 2016 ○ **Site Supervisor Civil**  
Saudi Real State Shirka Al Akaria, Riyadh, Saudi Arabia
- Control of use of unauthorized drawings at site by cross verifying the drawing number and its latest revision with the drawing log prior issuing to site execution team.
  - Conducting toolbox talk for any ongoing activity to make awareness among site construction team regarding the correct way of procedures to secure approvals easily, avoid rework & man-hours lost.
  - Performing the pre-inspections as per approved checklist before final inspection with consultant & performing all inspection activities with consultant and getting approvals according to the approved drawings, projects specifications/standards.
- Jan 2013 - Jul 2015 ○ **Field Engineer Civil**  
RMS PVT LTD, Dadu, Pakistan
- Oversaw engineering efforts during field operations, providing guidance on compliance with business goals.
  - Managed use of materials and equipment to prevent property loss and support availability.
  - Completed site surveys, marked locations and oversaw construction of various projects. Supervised execution of contracts and prepared invoices for projects.
  - Reviewed construction activities for compliance with health and safety requirements.
  - Oversaw roadway milling, paving, drainage, utilities, traffic control and depth replacement.
  - Supervised and monitored project subcontractors and labor force.
- Jun 2011 - Dec 2012 ○ **Sub Engineer Civil**  
ACTED (Agency for cooperation and technical Development), Kandhkot, Pakistan

- To conduct Survey, Feasibility Studies, and to Design Prepare estimates BOQ of Infrastructure Schemes.
- Preparation of CPI proposals, data collections, monitoring evaluation of the program.
- Supervision of field works i.e. Buildings, Irrigations, Low cast Houses, Culverts, Link road, Sanitation, Water course, Hand pumps.
- Site Survey and possibility Study Report. Preparation of Design, Drawings and Estimations With complete Projects Proposal.
- Preparation of scheme installment request.
- Supervision on all construction activities.
- Execute the construction work according Drawings. To keep record of all work.
- Survey and Design of Community Physical Infrastructure Scheme.

Nov 2008 - Jun 2011

**Site Engineer Civil**

Sardar Mohammad Ashraf D. Balouch (Pvt.) Ltd, Khuzdar, Pakistan

- Supervision of field works Bridges, Highway Roads, Culverts, Reporting to Project Manger.
- Under my supervision Site Survey and possibility Study Report. Preparation of Design, Drawings and Estimations With complete Projects Proposal.
- Preparation of scheme installment request. Supervision on all construction activities. Execute the construction work according Drawings.

Apr 2008 - Oct 2008

**Site Civil Supervisor**

Huawei Technologies Co. Ltd., Islamabad, Karachi, Pakistan

- Assist all engineering superintendents and subcontractors and ensure compliance to all project schedule and budgets and evaluate all associated equipments and workforce to meet all design requirements.
- Provide an interface with design group and resolve all issues of subcontractors and prepare reports for all subcontractors and evaluate all installation.

## Education

2015

**Shah Abdul Latif University**

Masters of Education , masters

Econometrics

Grade: B

2012

**Shah Abdul Latif University**

Bachelors in Arts , bachelors of arts

Humanities

Grade: B

2008

**Government Polytechnic Institute**

Diploma , Associate Engineer civil

Soil Machnics Highways & Airport, Building and Construction & Maintenance Engineering. Civil Engineering drawing. Transpiration Engine

Completed
