EXPERIENCE

ESTIMATOR

Digital Estimation

2022-2024

- Expertly developed comprehensive cost estimates for diverse construction projects, including interior construction, mechanical, plumbing, electrical, and both interior/exterior finishing.
- Utilized industry-standard software, including PlanSwift and Bluebeam, to enhance accuracy and efficiency in cost estimation and project planning.
- Accurately assessed project costs across multiple domains, ensuring precise budgeting and resource allocation.
- Collaborated with cross-functional teams to align on project objectives, contributing to efficient project planning and successful execution.
- Enhanced project outcomes through in-depth cost analysis, supporting strategic decision-making and achieving project goals.

FREELANCING

Upwork

2023-Present

- Provided detailed and accurate quantity estimates for a wide range of construction projects, helping contractors secure more jobs.
- Expertise includes ceilings, floor finishes, roofing, doors, windows, renovation projects, electrical, plumbing, fire systems, communication systems, and painting.
- Proficient in PlanSwift, Bluebeam Revu, and MS Excel for precise and efficient project estimation.
