EDUCATION

New York University | New York City, NY

Class of 2024

Bachelor of Science in Mechanical & Aerospace Engineering with Minor in Finance

Major GPA: 3.8 | *Dean's list*

Relevant Coursework: Financial Statement Analysis, Construction Engineering, Fluid Mechanics, FEM, Heat Transfer, Advanced Mathematics, Cost Estimating, Construction Scheduling

WORK EXPERIENCE

DBI Projects | New York, NY

June 2024 – Present

Project Manager

- Responsible for timely execution of deliverables which led to concluding a project on time which was previously delayed by 2 months
- Led weekly meetings with client, contractors and engineer teams to identify, evaluate and solve problems in the project
- Conducted extensive analysis of the monthly budget to create comprehensive models and projections in Excel and Python
- Performed weekly site visits and inspections at all active construction sites to ensure workmanship and contract compliance
- Provided documentation and guidance for deficiencies as well as creating punch lists to identify them
- Produced weekly and monthly progress reports for all parties involved
- Facilitated communication between contractor and client when disputes over change orders occurred

Equinor & OSC | New York, NY

Sept 2023 – May 2024

Engineering & Business Development – Renewable energy (Offshore wind)

- Main Project: **South Brooklyn Marine Terminal & Empire Wind**
- Partook in regular investor relations meetings with investment funds in the scope of facilitating energy transactions
- Consultant on engineering practices using AutoCAD, SolidWorks and a proprietary CFD software
- Conducted research on governmental policies related to the offshore wind industry

Trasacco Group | Accra, Ghana

Jun 2023 – Aug 2023

Real Estate Engineering & Project Management Intern

- Main Project: **Adinkra Heights** – A Residential and Office complex
- Produced a procurement plan for the project strategy and implemented it
- Reviewed project deliverables and provided feedback to maximize cost efficiencies and avoid delays
- Led the communication between the architects and engineering team and organized pre-construction meetings
- Synthesized information to then present to directors of the corporation and clients
- Responsible for collecting and reviewing documentation to prepare close-out statements and folders

STOSA NYC | New York, NY

Jun 2022 – Aug 2022

Real Estate Contractor & Subcontractor Administrator Intern

- Secured a \$90,000 contract together with my team by marketing the company to various entities to supply furniture
- Negotiated with business clients over costs, lead time and streamlined the distribution and assembly of our products
- Analyzed the costs and expected revenue to supply the most competitive quote

Trasacco Group | Accra, Ghana

Jun 2021 – Aug 2021

Real Estate Construction - Field Engineering Intern

- Constructed a variety of financial reports, including cost simulations, balance sheets, cash flow statements
- Conducted Structural analysis of structures using ANSYS Workbench and Solid works
- Handled correspondence of audit information between the company and auditors

VOLUNTEERING & PROJECTS

Finite Element Analysis MATLAB Auto solver | New York University

May 2024

Independent Project for Class Thesis

- Created a FEA software to emulate ANSYS in MATLAB from the ground up
- Program had inputs of Stiffness matrixes, number of elements, Loads, and Location of nodes on a XYZ coordinate system
- Allows for different types of supports such as Fixed, displacement and simple supports.
- Used to display stress, strain, nodal displacement and reaction results

Frafraha Foster home | Accra, Ghana

April 2017 - Present

Volunteer

- Digitized school records like attendances and gradebooks on Excel and Word
- Looked after the younger kids by organizing football games and other fun activities
- Taught sections of Math, ICT and Physics classes while advising some older students who were interested in Engineering

ADDITIONAL INFORMATION

Skills: Proficient in English and Italian, Teamwork, Communication, Budgets, Project finance

Computer: MS Office & MS Projects, Procore, Bluebeam, Python, MATLAB, ANSYS, SolidWorks, AutoCAD
