

About Me

Dedicated and highly motivated Civil Engineering graduate from the University of Engineering and Technology Taxila, with a solid academic background complemented by hands-on experience gained through on-site internships. Possessing a comprehensive understanding of civil engineering principles, I am committed to applying innovative solutions to address real-world challenges. Skilled in collaborating with multidisciplinary teams, I focus on delivering projects with an emphasis on quality, efficiency, and sustainability. Currently working remotely as an Estimation Engineer in the USA market, I leverage my expertise in Quantity Takeoff and cost-effective solutions to contribute to successful project outcomes.

Skills

- Planswift
- AutoCad
- Revit
- Etabs
- Surveying
- Structural Design
- Transportation Engineering
- MS Office
- Strategic Planning
- Project Management
- Team Work

Certifications

- Certificate for 4-week internship under National Highway Authority, Pakistan
- Certificate for 4 week internship under Zeeruk International (Pvt.) Ltd.
- Certificate for 2-week Survey Camp in Khanaspur, organized by University of Engineering and Technology, Taxila.

Experience

Estimation Engineer	October 2023 -Present
Estimatech Solutions	
Experienced Estimation Engineer specializing in USA construction projects, with a strong emphasis on preparing accurate cost estimates and detailed quantity take-offs in alignment with CSI Division standards. Proficient in utilizing industry-standard software such as PlanSwift and Bluebeam, I ensure precision and compliance with project requirements. My solid background in civil engineering, combined with hands-on expertise in estimation, enables me to deliver accurate quantity take-offs and cost-efficient solutions remotely, ensuring effective time management and supporting comprehensive project management.	
Internee Engineer	July 2022-August 2022
Capital Development Authority (CDA) Pakistan.	
As a Civil Engineering intern at Capital Development Authority (CDA) Islamabad, Pakistan, I acquired comprehensive experience in planning, design, construction, and project management. Assigned to diverse projects with Zeeruk International (Pvt.) Ltd., including the 10th Avenue Islamabad and Widening of Islamabad Highway Project, I gained invaluable expertise in bridges, underpasses, roads, and infrastructure development.	
Internee Engineer	August 2021
National Highway Authority (NHA) Pakistan.	
"As a Civil Engineering intern with the National Highway Authority (NHA) in Pakistan, I gained valuable experience in road construction, maintenance, and management. My assignments at DD Maintenance office Wazirabad, Punjab, Pakistan involved diverse projects in Road Maintenance, Construction, and Designing, providing me with significant learning opportunities and enhancing my skills in the field."	
Education	
BACHELORS IN CIVIL ENGINEERING	2019-2023
University of Engineering and Technology, Taxila	
Final Year Project on "Effects of Addition of Dry Battery Waste on the Properties of Asphalt	
CGPA 3.27/4.00 with the percentage of 80.54%	
FSC. PRE ENGINEERING	2017-2019
Superior College, Sialkot, Punjab, Pakistan	
Marks: 950/1100 with the percentage of 86.4% and awarded with A1 grade overall.	
MATRICULATIONS	2015-2017
Harvard Grammar High School, Sialkot. Punjab, Pakistan	
Marks: 1004/1100 with the percentage of 92.3% and awarded A1 grade overall.
