ACADEMIC PROJECTS

FINAL YEAR PROJECT

Prediction of air quality index based on machine learning algorithm.

- **Conducted** Comprehensive Research on air quality using machine learning algorithms on Lahore

SEMESTER PROJECTS

- Design and simulation of car radiator fan using Ansys fluent.
- Design of gears and springs using Solid work

AREAS OF INTREST

- Quality Control and Quality Assure
- Power Plant
- Engineering Management
- Health, Safety and Environment
- Project Management
- Manufacturing Process
- Estimation engineering

SKILLS

- Deep understanding of engineering drawings
- Time management
- Team work
- Adaptability
- Problem solving
- Effective communication

Software Skills

- AutoCAD
- Solid works
- Plan swift
- Ansys
- MS office
- Machine learning

Certifications

B2 Certified in English
[Duolingo English test](#)

Career prep fellow
[Amal Academy](#)

Debates Competition
[UET MUN Society](#)

HOBBIES & EXTRA-CURRICULAR ACTIVITIES

- Cricket
- Badminton
- Educate children

Language

- English B2 certified
- Urdu
