

FARQALEET KHAN

CIVIL ENGINEER

[+92-3070735356](tel:+92-3070735356) | farqaleet905@gmail.com

EDUCATION

University of Engineering & Technology, Peshawar
Bachelor of Science in Civil Engineering CGPA: 3.51/4

September 2020 – July 2024

Government College, Peshawar
Intermediate (Pre-Engineering) Grade: A1

September 2018 - June 2020

PROFESSIONAL EXPERIENCE

National Highway Authority, Peshawar
Site Supervisor

August 2023 – Sept 2023

- Maintenance of road thickness.
- Examining the compaction of different paved and unpaved layers of road.
- Ensuring the properties of materials and work according to NHA standards.
- Making sure the arrival of materials on time.
- Dealing with local inhabitants in case of any issue.
- Preparing daily progress reports.

The Value Engineering (USA Based), Rawalpindi
Estimation Engineer

July 2024 – Present

- Reviewing the blueprints and specifications of the project to understand the scope of work.
- Detailed meetings with the clients to propose the possible ways to carry out the estimate smoothly before the due date
- Performing quantity takeoff of the projects using Planswift, Bluebeam, RFMS.
- Developing comprehensive Bill of Quantities(BOQ).
- Preparing cost estimates according to US market rates.
- Writing proposal of the project.

ACADEMIC PROJECTS

Numerically development of fragility function for RC-ECC low rise hybrid structure integrating ECC at beam column joint.

FYP

- Evaluated the fragility functions of hybrid RC-ECC structures by employing SeismoStruct and Seismomatch. ECC significantly improved seismic performance, outperforming ordinary RC structures. Given Pakistan's seismic activity, adopting RC-ECC composites is recommended to enhance resilience.
- To mitigate the risks of future seismic events, promoting RC-ECC composite structures in seismic-prone areas is crucial. These structures, incorporating Engineered Cementitious Composites (ECC), offer superior earthquake resilience and enhance overall structural performance and safety compared to traditional reinforced concrete (RC) structures.

EXTRACURRICULAR & VOLUNTEER EXPERIENCE

CED Proctorial Board

- As the Event Management Head of the CED Proctorial Board, I successfully organized both academic and non-academic events for the Civil Engineering department on campus, which enhanced my leadership and management skills.

Zindagi Prize

- As a member of the organizing committee for the Zindagi Prize, I helped coordinate entrepreneurship seminars and the Zindagi Prize business idea competition on campus, which greatly contributed to my personal growth and professional development.

TECHNICAL SKILLS

- Quantities takeoff using Planswift, Bluebeam and RFMS.
- Project Planning and Management using Primavera P6 and MS Project.
- Structural Analysis and Design using Sap2000 and Etabs.
- Structural Seismic Vulnerability using SeisoStruct.
- 2D, 3D maps and rendering using Revit and Autocad.
- Civil 3D.
- MS Office.
- Python.
- Seismomatch.
- Scientific research writing skills.

CONFERENCES AND SEMINARS

- GHAR seminar organized by UNOPS in collaboration with UET Peshawar.
- Seminar on effective utilization of Primavera P6 organized by the Civil Engineering Department of UETP JZ.
- Current crisis and entrepreneurship organized by Zindagi prize.

HONORS AND AWARDS

- Secured 3rd position in the campus round of the Zindagi Prize Business Idea Competition.
- Secured 2nd best final year project award in our batch.

HOBBIES AND INTERESTS

- An avid book reader
- Feel energetic to step out for jogging
- Love to play E-gaming
