ABOUT ME

A highly motivated Civil Engineer looking for a demanding and quality-oriented role where I can utilize my skills, gain more work experience, and contribute to the achievement of organizational goals. With a background in quality control, site management, Planning, project design and project estimation, I have extensive experience assessing construction plans, conducting site investigations, preparing accurate estimates, and ensuring engineering requirements are met. Experienced in conducting quality inspections, managing project paperwork, and working with stakeholders to resolve technical concerns while adhering to building codes. Proficient with AutoCAD, Revit, and Primavera P6 for creating precise design drawings, managing project timetables, and achieving successful project outcomes. Keeping up with industry standards and regulations to promote personal and organizational growth.

WORK EXPERIENCE

01/07/2024 – CURRENT Gujjar Khan, Pakistan

QC ENGINEER(CIVIL) BSM DEVELOPERS PVT LTD

- Conducted site inspections for civil work, MEP work, and infrastructure works, including roads, water supply, storm drains, and sewerage systems.
- Reviewed construction plans, performed site investigations, and prepared project drawing and Estimates.
- Monitored construction activities for compliance with engineering standards and conducted quality inspections.
- Compiled progress reports, maintained documentation, and prepared as-built drawings.
- Coordinated with contractors to ensure adherence to project specifications and building codes.
- Supported project closeout, ensuring timely completion, scope compliance, and safety standards..

02/05/2023 – 30/06/2024 Lahore, Pakistan

ASSISTANT RESIDENT ENGINEER SHAHZAD AYUB ASSOCIATES

- Monitored construction activities to ensure compliance with engineering standards.
- Maintained accurate project documentation and records.
- Addressed construction issues and provided prompt solutions.
- Prepared weekly and monthly progress reports on project status.
- Conducted daily site inspections and collaborated with QA/QC teams for quality assurance.
- Verified Bar Bending Schedules (BBS) and reviewed IPC for timely payments.
- Coordinated with designers to resolve drawing issues and assisted contractors with specifications.
- Maintained positive client relationships and stayed updated on industry regulations.

01/05/2022 – 28/02/2023 Lakki Marwat, Pakistan

SITE ENGINEER MAIN GHAZI ENTERPRISE GOVT. CONTRACTOR

- Develop detailed design drawings using AutoCAD for road construction project
- Work with project manager to ensure design meets project specifications
- Collaborate with team members and stakeholders to identify and resolve design issues
- Prepare and maintain accurate project documentation, including drawing logs and revision histories
- Participate in site visits and inspections to verify design specifications are being met.

06/10/2021 – 25/04/2022 Peshawar, Pakistan

SITE ENGINEER SAIF ASSOCIATE, PESHAWAR

- Support project delivery with AutoCAD and Revit, collaborating closely with the team.
- Prepare detailed engineering drawings, plans, and designs.
- Review and analyze project requirements and specifications.
- Create precise 2D and 3D models and presentations.
- Conduct quality checks on drawings and assist with construction administration, coordinating with contractors and stakeholders.

- Provide technical support to senior staff members.
- Gather data on existing conditions at construction sites (e.g., soil conditions, land elevations).
- Perform calculations by hand or using computer software programs to estimate material requirements and engineering specifications.
- Develop construction plans for building.
- Conduct tests to measure physical properties, such as tensile strength and compressive strength of materials.

● **EDUCATION AND TRAINING**

17/07/2017 – 14/09/2021 Pakistan

BACHELOR OF CIVIL ENGINEERING University of Engineering and Technology, Peshawar

Address Peshawar, Pakistan | **Field of study** Building and civil engineering | **Final grade** A

● **LANGUAGE SKILLS**

Mother tongue(s): **PASHTO**

Other language(s): **URDU** | **ENGLISH**

● **DIGITAL SKILLS**

Microsoft Office | REVIT | ETABs | Primavera P6 | AutoCAD

● **PROJECTS**

Final Year Project

PREDICTION OF ROCK BURST HAZARDS USING BAYESIAN BELIEF NETWORK

Mini Projects

1. Bar Bending Schedule for three story Residential building. (7th semester)
2. Model and Analyze a residential building of 2-story, in your native town on a square one canal plot. The building is located in seismic zone IV.(6th semester)
3. Mix Design of concrete.(5th semester)

● **HONOURS AND AWARDS**

AutoCAD – DigiSkills.pk

Survey Camp – UET Peshawar

Construction Project Management – Coursera

Project Mangement Primavera P6 – design and Engineering Consultant
