

Tanveer Ahmad

Electrical Estimator at INTERNATIONAL ESTIMATING, LLC

Electrical estimators are typically employed by construction, electrical contracting, or project management companies to **estimate the cost of electrical installations**. They analyze blueprints to determine the electrical needs of various projects, provide solutions to increase profitability, and prepare project bids.

1. Bid the right jobs.
2. Review the specs.
3. Review the drawings.
4. Perform a quantity takeoff.
5. Get current supplier pricing.
6. Create your estimate.
7. Add overhead & profit.
8. Build your proposal.
