## EDUCATION

**BSC CIVIL ENGINEERING**  
UET Taxila 2020-2024

**INTERMEDIATE (PRE-ENGG.)**  
**APSACS Askari-14, Rawalpindi**  
**(FBISE)** 2018-2020  
85.00% marks

**MATRICULATION (SCIENCE GP.)**  
**APSACS Askari-14, Rawalpindi**  
**(FBISE)** 2016-2018  
93.72% marks

## SKILLS

- Site Supervision
- Team-orientated & Self-reliant
- Construction Management
- Critical Thinking & Decision-making
- Quantity Estimation
- Research Expertise

## SOFTWARES

AutoCAD Civil3D  
Primavera P6 ETABS  
Microsoft Office PlanSwift

## CERTIFICATIONS

Introduction to Cyber Security  
Awareness

Success  
Mindset

Effective  
Leadership

Excel Skills Virtual Experience Program

Construction Project Management

## ABOUT ME

A highly motivated civil engineer with a zeal for learning and solving construction problems and applying project management skills to improve quality, cost and time metrics. My goal is to contribute to the progress of an organization through the knowledge gained during my bachelor's engineering studies.

## PROFESSIONAL EXPERIENCE

**FWO (751 CTE)**  
Rawalpindi (September 2024-March 2025)

Served as a Trainee Engineer on the Rawalpindi Ring Road Project, managed the structural and earthwork operations, prepared progress reports, and coordinated with stakeholders to ensure timely completion of activities, in compliance with relevant codes and safety standards.

### DHA ISLAMABAD

Islamabad (July 2023-September 2023)

Gained exposure as an Intern, to modern techniques of building and infrastructure construction such as HVAC systems, fountain and water reservoirs, revamping of roads and interior designing/renovation of suites and other commercial buildings.

### LAHORE TIMES SQUARE LTD.

Lahore (July 2023)

Performed duties as an Intern to utilize diverse software skills, and to gain experience on advanced civil engineering techniques useful in designing phase of a podium.

## EXTRACURRICULAR ACTIVITIES

- Performed research and working on "Determination of Bearing Capacity Reduction Factors for Collapsible Soils" as part of FYDP.
- Participated in the 5th International Eurasian Conference on Science, Engineering and Technology (EurasianSciEnTech 2024) and published research paper on the topic: "Investigation of High-Performance Reinforced Concrete Slender Columns under Axial and Bi-Axial Loading".
- Earned certificates from Community Services by Civil Engineers UET Taxila, as part of recognition towards performing services for the community.
