

Syed Abdul Wahab Ahmad

Nationality: Pakistani **Date of birth:** 17/06/2000 **Gender:** Male

Phone number: (+92) 3364331148 **Email address:** aw564925@gmail.com

Home: 795-E Block Johar Town, 54000 Lahore (Pakistan)

ABOUT ME

I am **Syed Abdul Wahab Ahmad**, a civil engineer specializing in the **design of water supply and sewerage systems**. My expertise includes creating efficient designs, preparing feasibility reports, performing hydraulic analysis, and developing detailed hydraulic statements. I am proficient in generating accurate Bills of Quantities (BOQs), cost estimates, and bar bending schedules to ensure structural integrity and compliance. With experience in monitoring and evaluating infrastructure projects, I focus on maintaining quality, timelines, and resource efficiency. Committed to sustainable development, I aim to deliver innovative and impactful engineering solutions that address modern challenges and improve the quality of life for communities.

WORK EXPERIENCE

Junior Civil Engineer

MM Pakistan Pvt.Ltd [15/04/2024 – Current]

City: Lahore | Country: Pakistan

Monitoring and Evaluation of Punjab Cities Program (PCP) Project:

- Track key performance indicators (KPIs) related to project outputs (e.g., infrastructure development, resource allocation, and timelines).
- Conducted field visits to verify the physical and financial progress of project activities.
- Ensure adherence to project standards, guidelines, and policies.
- Monitor contractors' performance, ensuring they meet quality, safety, and environmental standards.
- Verify alignment with regulatory requirements, such as those set by local or international bodies.
- Identify potential risks or bottlenecks in project implementation (e.g., delays, resource shortages).
- Propose corrective actions to address identified issues promptly.
- Analyze data to determine whether the project is achieving its intended outcomes (e.g., improved water supply, sewerage systems, and waste management).
- Prepared detailed evaluation reports, including findings, lessons learned, and recommendations for future projects.
- Provided feedback to stakeholders, including government authorities, donors, and implementing agencies.

Junior Civil Engineer

MM Pakistan Pvt.Ltd [15/11/2022 – 14/04/2024]

City: Lahore | Country: Pakistan

Basic and Detailed Design of Gravity-Based Safe Drinking Water Supply System in Havelian, Abbottabad, Khyber Pakhtunkhwa Province, Pakistan Government of Khyber Pakhtunkhwa KOICA Funded Project

- Conducted hydrological analysis of Dohr River Abbottabad to assess water flow rates and potential for water supply.
- Developed and implemented engineering solutions to address project and design issues, ensuring compliance with regulatory standards and project requirements.
- Prepared Bills of Quantities (BOQs) and cost estimates for various components of the Water Treatment Plant (WTP) and Intake Structure, considering materials, labor, and equipment costs.

- Generated Bar Bending Schedule (BBS) for project components including Intake Structure, WTP, Overhead Reservoirs (OHRs), and High Ground Reservoirs (HGRs) to facilitate construction scheduling and reinforcement detailing.
- Collaborated with multidisciplinary teams including senior engineers, contractors, and stakeholders to coordinate project activities and ensure successful project execution.

Karachi Water and Sewerage Services Improvement Project (KWSSIP)
Government of Sindh
World Bank Funded Project

- Conducting thorough assessments of existing water supply and sewerage infrastructure.
- Analyzing the technical and economic feasibility of proposed improvements and expansions.
- Conducting studies to assess water sources, environmental impacts, and sustainable practices.
- Creating detailed designs for water treatment plants, sewerage systems, distribution networks, and pumping stations.
- Ensuring designs meet local, national, and international standards and regulations.

Trainee Civil Engineer

MM Pakistan Pvt.Ltd [15/08/2022 – 14/11/2022]

City: Lahore | Country: Pakistan

Punjab Cities Program (PCP)
Government of Punjab
World Bank Funded Project

- Designed Water Supply Systems for Wazirabad and Jhelum, including feasibility studies and sectoral reports.
- Participated in site surveys to assess project feasibility and gather relevant data.
- Shadowed senior civil engineers to gain insight into best techniques, practices, and skills.
- Assisted in the preparation of Quality Management System (QMS) forms for the project.
- Contributed to the development of engineering designs and reports.

Skardu Development Authority (SDA)

- Conducting detailed surveys and geotechnical investigations to understand the site conditions.
- Analyzing water sources, including rivers, lakes, and groundwater, to determine the best source of water.
- Assessing the technical, economic, and financial feasibility of the project.

EDUCATION AND TRAINING

Bachelor's in Civil Engineering

University of Management and Technology [15/10/2018 – 16/11/2023]

City: Lahore | Country: Pakistan

FSC Pre Engineering

Kips College [29/08/2016 – 12/09/2018]

City: Lahore | Country: Pakistan

Matric (Science)

Kips School [17/03/2014 – 20/07/2016]

City: Lahore | Country: Pakistan

LANGUAGE SKILLS

Mother tongue(s): Urdu

Other language(s):

English

LISTENING B2 READING C2 WRITING C2

SPOKEN PRODUCTION B1 SPOKEN INTERACTION B1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

DIGITAL SKILLS

ArcGIS, ESRI, QGIS, EPANET, Google Earth Pro / HECRAS 5.0.09, 6.0 / WaterGEMs / AutoCad 2D -3D / Cost Estimations / Microsoft Office / Bar Bending Schedule / Bill of Quantities / SewerGEM / Sap-2000 / PRIMAVERA P6

NETWORKS AND MEMBERSHIPS

[15/01/2024 – Current] Pakistan

Member of Pakistan Engineering Council (PEC)

Registered Engineer CIVIL/071416

HOBBIES AND INTERESTS

Indoor and Outdoor Activities

- Badminton
- Cricket
- Table Tennis
- Novels and Newspapers
