Education

University Of Wah ,Wah Cantt

Bachelors of Science in Civil Engineering

CGPA: 3.13/4.0

Superior College for Boys, Mianwali

Higher Secondary School

(Board of Intermediate and Secondary Education, BISE-Sargodha).

Marks: 785/1100

Abdul Razzaq Fazaia College, Mianwali

Secondary School Certificate.

(Federal Board of Intermediate and Secondary Education, FBISE-Islamabad).

Marks: 965/1100

Wah Cantt, Pakistan

(2020-2024)

Mianwali, Pakistan

(2018-2020)

Mianwali, Pakistan

(2016-2018)

Experience

1- Spring City Housing Society Mianwali

Mianwali, Pakistan

Civil Site Engineer: (Jun-2024 – Until Now)

i. Main Entrance Gate Construction

- Successfully supervised the construction of the main entrance gate of a housing society.
- Managed all aspects of construction, including structural works, material selection, and quality assurance.
- Coordinated with contractors and workers to ensure timely completion while adhering to design specifications.
- Ensured safety protocols and high standards of workmanship throughout the project.

ii. Laying of Asphalt

- Supervised the laying of asphalt on the Main Boulevard, ensuring a loose thickness of 2.5 inches, compacted to a final thickness of 2 inches.
- Monitored compaction processes to achieve desired density and smoothness, ensuring compliance with project standards.
- Coordinated with the team for material delivery, paving operations, and quality control to ensure timely execution.
- Conducted on-site inspections to maintain high-quality workmanship and adherence to safety protocols.

iii. Sewerage and Storm Water Line Works

- Supervised the installation of sewerage lines with 18-inch and 24-inch diameter pipes, along with manholes of 4-ft and 5-ft diameters, ensuring accurate alignment and connections.
- Oversaw the laying of 1-ft diameter storm water lines with 4-ft diameter manholes, maintaining proper gradients for efficient water flow.
- Conducted hydro tests on pipes and manholes to ensure there were no leakages and to verify structural integrity.
- Coordinated with the team for excavation, pipe placement, and backfilling, ensuring adherence to design specifications and safety standards.

2- Defence Housing Authority Islamabad (DHA).

Islamabad, Pakistan

Internee Site Engineer: (Jun-2023 – Aug-2023)

- Worked under the guidance of experienced engineers, gaining insights into multi-story building project management.
- Learned the intricacies of road systems, canal systems, and area planning.
- Observed and participated in the detailed planning and execution phases of various infrastructure projects.
- Developed a comprehensive understanding of construction workflows and project coordination.
- Enhanced knowledge of project management principles and real-world problem solving in civil engineering.

Skills

Microsoft Word, MS Excel, AutoCAD , Canvas, Draw.io, Etabs.

Languages

English, Urdu.
