## CIVIL ENGINEER

Detail-Oriented Civil Engineering Graduate with a strong foundation in design principles and surveying techniques. Proven ability to leverage analytical skills and technical expertise to generate accurate models, reports, and cost estimates. Eager to contribute to a growing engineering firm by applying these skills to real-world construction projects and supporting project success.

### EXPERTISE

- Cost Estimating (Project Analysis)
- Spreadsheets & Data Management
- Communication & Collaboration

### SOFTWARE SKILLS

- Microsoft Excel
- AutoCad
- Primavera P6

## WORK EXPERIENCE

### Irrigation Department Internee

June 2023 - August 2023

- Analyzed water usage data to identify areas for efficiency improvements.
- Collaborated with engineers to develop and implement irrigation plans.
- Prepared technical reports on project findings.

## PROJECTS

### Survey Camp

2024

- Conducted a topographic survey of the Chiniot campus using modern tools like theodolites and total stations, generating detailed digital terrain models.
- Explored new survey techniques, analyzed and compiled data using MS sheets and softwares like Civil 3D, AutoCad and Eagle Point.

### Building Models/Analysis and Cost Estimation

- Sketch layout of buildings and done their analysis using Softwares like AutoCad and CSI Bundles(Etabs, Sap2000, Safe).
- Developed cost estimates for a proposed building project, utilizing industry.
- Utilized Microsoft Excel to create automated spreadsheets for concrete ratio calculations.

### FYDP

- Led a team of three engineers in the analysis of sustainable construction material using agricultural wastes.

## OEL and Irrigation Design Sheets

- Prepared comprehensive spreadsheets for canal design and scheme design projects using Microsoft Office Suite.
  - Generated reports by conducting relevant research on articles and experiments.
-

| • Introduction to Reality of National Disasters by Prof. Ikuo Towhata | Dec 2022 |
| • Workshop on Stability Analysis of a Rock Slope Using 3DEC           | May 2022 |
| • Civil 3D One Day Training Workshop                                  | Sep 2021 |

---

## LANGUAGE SKILLS

### Urdu

Native speaker: Extensive fluency in written and spoken.

### English

Proficient in written and spoken. Comfortable communicating in a professional setting.

### Chinese

Beginner
