Summary

Recent Civil Engineering graduate from UET Taxila with a CGPA of 3.1/4, equipped with extensive knowledge of structural design, construction planning and management and a strong commitment to sustainable engineering. Eager to bring innovative solutions and contribute to dynamic engineering projects.

Experience

Irrigation Department Faisalabad

Faisalabad, Punjab/Pakistan

Job Title: Engineer Intern

June 2024 – Aug 2024

Responsibilities: Working with team Project Management to monitor quality of materials and lab testing on site.

Education

University of Engineering and Technology, Taxila, BSc Civil Engineering, 2025

- CGPA: 3.1/4
- **Final Year Design Project:** Develop a closed loop where waste is minimized and resources are conserved for developing countries.

Superior college, Murid Wala, FSc. Pre-Engineering, 2021

- Marks: 1087/1100

Government High School Tariq Colony , Mamukanjan, Matric, 2019

- Marks: 1030/1100

Projects

- **Develop a closed loop where waste is minimized and resources are conserved for developing countries (Final Year Design Project)**
The aim of this study is to develop a context-specific closed-loop waste management system that minimizes waste generation and conserves resources within Rawalpindi, a representative urban center in Pakistan. The proposed system will integrate sustainable practices such as waste segregation, reuse, recycling, composting, and energy recovery into a coherent, community inclusive framework.
Tools/Equipment Used: Collect Previous and Current data of the Rawalpindi Region, Field Visit , Surveys and Questionnaires, Interviews
- **Design and Preparation of Submission Drawings for a Two-Story Residential House (Semester Project)**
Completed the design and submission drawings for a 10 Marla house including Estimation and detailed structural components. **Tools Used:** AutoCAD, Autodesk Revit. Excel
- **Step by Step Procedure of Modelling, Analyses and Design of Simple Multistory building of frame Structure in Etaabs (Semester Project)**

Tools Used: ETABS, Autocad

Awards

- Merit-Based Scholarship during Matric Studies (2017-2019)
- Merit-Based Scholarship during Intermediate Studies (2019-2021)
