To build a career as a skilled metallurgist with a strong foundation in materials development, processing, and performance analysis. I aim to apply metallurgical principles to solve real-world engineering challenges and contribute to technological advancements. Dedicated to continuous learning and professional growth within the materials industry.

Education

University of Engineering & Technology Lahore	Lahore, Pakistan
BSc Metallurgical & Materials Engineering	November 2021 -May 2025
Government College Township Lahore	Lahore, Pakistan
FSc Pre-Engineering	August 2019 - October 2021
Bright Grammar High School	Lahore, Pakistan
Matric	April 2017 - July 2019

Professional Experience

Premium Service (Reconstruction of Lady Willington Hospital)	September 2024 – July 2025
Worked on the Reconstruction Project of Lady Willingdon Hospital, Lahore	
Conducted Field Density Tests (FDT) to evaluate soil compaction	
Performed Compression Tests on concrete and bricks to ensure material strength	
Executed various quality control procedures to ensure compliance with construction standards and project specifications	
Ensured timely reporting and coordination with site supervisors and consultants for corrective actions	

Summer Internships

Pakistan Standard and Quality Control Authority	July 2024 – August 2024
- Interned at PSQCA in the Mechanical Testing Department, gaining hands-on experience in evaluating the mechanical properties of materials to ensure compliance with quality standards.	
Pakistan Aeronautical Complex Kamra	June 2024 – June 2024
- Interned at PAC Kamra, focusing on Non-Destructive Testing (NDT) techniques, gaining practical experience in inspecting materials and components for defects without causing damage.	
Bestway Cement Limited	July 2023 – August 2023
- Interned at Bestway Cement Limited in the Mining Department, focusing on crushing operations, blasting techniques, and cement testing, gaining practical knowledge of mining processes and material handling in cement production.	

Course Work

- Inspection and Quality Assurance
- Iron and Steel Making
- Polymeric Material
- Mechanics of Material
- Metal Working and Removal Process
- Welding and Joining of Material
- Process, Control, and Instrumentation
- Composite Material

Academic Experience

Metallographic Competition (Runner up)	January 2024
--	--------------

- IMME (University of the Punjab) hosted a symposium and a metallography competition. My teammates and I participated in the metallography competition. Using 100x and 500x magnification, we created a sample of High-Phosphorus Wear-Resistant Cast Iron and took microstructure images. We also talked with businesspeople and university students.
- Certificate of Participation for presenting my topic on green energy efficiency by SOMAME UET, December 2023

Awards and Certifications

-
- | | |
|---|-----------------|
| • Certificate of Participation in Metallographic Competition by IMME (PU) | January 2024 |
| • Certificate of Participation by SOMAME UET in METACOMP 2.0 | February 2024 |
| • Certificate of Appreciation by BDS UET | December 2023 □ |
| • Certificate of Participation for presenting my topic on green energy efficiency by SOMAME UET | December 2023 |

Volunteer Experience

-
- SOMAME UET (Work as a Head of Management at SOMAME UET and also work in documentation and finance)
 - BDS UET (Work as an executive member and also work in documentation and HR team)
 - ASME (Work in documentation team)

Skills

-
- Microsoft word
 - Microsoft PowerPoint
 - Solidworks

Languages

-
- English
 - Urdu
 - Chinese
-
