PROFILE

Civil Engineer (BSc, UET Peshawar) with internship experience in road construction, project planning, cost estimation, and climate data analysis. Proficient in PlanSwift, AutoCAD, Primavera P6, ArcGIS, and Python. Adept at collaborating with cross-functional teams, optimizing workflows, and delivering data-driven infrastructure solutions. Seeking Junior Civil Engineer role in infrastructure development or transportation engineering.

EDUCATION

B.Sc in Civil Engineering

Nov 2021 – Jun 2025

**University of Engineering and Technology (UET),
Peshawar**

Peshawar, Pakistan

- **CGPA:** 3.1/4
- **Coursework:** Reinforced Concrete Design (RCD), Structural Analysis, Transportation Engineering, Hydrology, Construction Management.

PROFESSIONAL EXPERIENCE

Mian Ghazi Enterprises

Jul 2023 – Sep 2023

Intern Engineer

Lakki Marwat, Pakistan

- Conducted 20+ daily site inspections using engineering drawings and checklists, ensuring 98% compliance with safety and design specifications.
- Used PlanSwift, MS Excel and AutoCAD to perform quantity takeoffs for asphalt, aggregates, and base materials, contributing to a 10% reduction in material waste.

Mian Ghazi Enterprises

Jul 2024 – Sep 2024

Intern Engineer

Lakki Marwat, Pakistan

- Assisted in project planning by reviewing baseline schedules in Primavera P6 and identifying float in non-critical activities.
- Facilitated weekly review meetings with subcontractors by preparing progress dashboards and delay impact summaries.

PROJECTS

Spatial and Temporal Variability of Maximum Temperature in Pakistan FYDP

Nov 2024 – Mar 2025

- Used Python and ArcGIS to analyze climate data from 1950-2100 across Pakistan
- Applied Mann–Kendall test and Sen's slope for statistical trend detection.
- Employed Recursive Feature Elimination (RFE), K-Means clustering, STL decomposition, and anomaly detection to explore climate variability.

CERTIFICATES

- Basics of Buildings and Construction Works | UniAthena & Cambridge International Qualifications, UK | Aug 2025 | Blockchain Verified
- Basics of Project Planning | UniAthena & Cambridge International Qualifications, UK | Aug 2025 | Blockchain Verified
- Data Analysis: Visualisations in Excel | The Open University (OpenLearn) | Aug 2025
- AutoCAD 2023 MasterClass: Produce Amazing Site Plans Quickly | Meta Brains | Aug 2025

TECHNICAL SKILLS

- | | | |
|---|--|--|
| • Quantity Takeoff & Cost Estimation (PlanSwift, Excel) | • Project Scheduling & Planning (Primavera P6) | • GIS Mapping & Climate Data Analysis (ArcGIS, Python) |
| • AutoCAD Drafting & Detailing | • Civil 3D | |

SOFT SKILLS

- | | | |
|------------------------|-----------------------|-------------------|
| • Communication Skills | • Analytical Thinking | • Problem Solving |
