

KAMRAN GUL

Phone Number: (+92) 308 9751720

Email: gulkamran513@gmail.com

Address: Block-8, Gulistan-e-Johar, Karachi

Professional Summary

A Motivated Civil Engineering graduate from NUST with strong academic grounding and practical experience in planning, estimation, and BIM tools. Skilled in modern design software, data analysis, and problem solving, with a commitment to delivering efficient, sustainable, and cost-effective engineering solutions.

Education

Military College of Engineering, NUST (3.37/4) BE Civil Engineering	Risalpur, Pakistan 2021-2025
Army Public School & College PMA kakul, Abbottabad (86%) FSc. Pre Engineering.	Abbottabad, Pakistan 2018-2020
Army Public School & College, Hyderabad Cantt (94%) Matric Science Group	Hyderabad, Pakistan 2016-2018

Professional Certifications & Trainings

- Project management 101
PMP Certification Training
- Primavera P6 Project
Planning and Scheduling Masterclass.

Internship Experience

DHA Head office 5/06/2024 – 15/07/2024 - Site supervision and monitoring. - Cost estimation and budgeting. - Quality Control and inspection. - Project planning, scheduling, and coordination.	Karachi, Pakistan
So-Safe Water Technologies 10/07/2023 – 25/08/2023 - Design and improvement of water filtration products. - Testing filtration systems. - Testing water samples before and after filtration. - Visiting different sites for installation, maintenance of filtration systems.	Karachi, Pakistan
Survey Camp 08/05/2023 – 22/05/2023 - Performed curve laying and land measurements. - Used GPS and total station for data collection. - Developed skills in accuracy and teamwork.	Abbottabad, Pakistan

Project (FYDP)

Title: Expansive Soil Stabilization using Marble Dust and Sisal Fiber.

The project explores the use of sisal fiber and marble dust as sustainable and cost-effective materials for stabilizing expansive soils, offering potential applications in construction, roadways, and infrastructure development while addressing environmental concerns.

Semester Projects

- Architectural and Structural Modeling of a Residential Complex in Revit.
- Hospital Construction Planning and Scheduling in Primavera P6.
- 2D drawings of buildings in Auto CAD.

Field of Interest

Project Planning and Scheduling, Cost Estimation, Construction Project Management, Resource Management, and Building Information Modeling (BIM), Safety in Construction.

Skills

Technical Skills

Primavera P6, Autodesk Revit, AutoCAD, MS Office, CROPWAT, CLIMWAT.

Interpersonal Skills

Strong Teamwork, Leadership & Communication, Positive Mindset & Impactful Presentations

Language Skills

English (B2 Level), Urdu (Fluent), Sindhi (Fluent)

Extracurricular Activities

- Sports
- Community Services
- Events Management
