CIVIL ENGINEER

As a civil engineering technology graduate with over of experience in mega government projects, I possess a strong foundation in construction principles and practices. My professional expertise includes a thorough understanding of project planning, cost estimating, and analysis of engineering design. I have excelled in a range of roles and have had the opportunity to collaborate with engineers and contractors at all levels of the industry. My hands-on experience in construction, project management, and contract administration ensured optimal process management while ensuring the highest standards of safety

STRENGTHS AND EXPERTISE

- Project Management
- Site inspection
- Budget Monitoring
- Critical design review
- BOQ Preparation
- Quality Control & Assurance
- Team Leadership
- Work Scheduling & Planning
- Operations Management

PROFESSIONAL EXPERIENCE

AL-KHAIR CONSTRUCTION COMPANY

January 2023 - Present

Site Engineer

- Ordered and tracked the delivery of construction materials and supplies from vendors.
- Recorded daily events and activities in the site diary to evaluate processes and improve productivity.
- Oversaw quality control and health and safety matters for con
- Suggested process and technical design changes to improve performance and efficiency.
- Created work schedules and adjusted as needed to meet project deadlines and keep shifts properly staffed.
- Gathered data, incorporating it into drawings, schematics, and maps.
- Checked technical designs and drawings for adherence to standards.
- Developed SOPs and change controls pertaining to setup, maintenance, and operation of equipment, facility and utilities.

Khayyam Ikram Design/Build

Nov 2021 - Jan 2023

Site Engineer

- Negotiating Contractors with external vendors to reach profitable agreements
- Collaborate with engineers to determine the specifications of the project
- Analyzed survey reports, maps, blueprints, and other topographical and geologic data to plan infrastructure and construction projects
- Facilitated and led site engineering projects relating to new or upgraded equipment, facilities and quality initiatives.
- Estimated materials costs and sourcing requirements for project feasibility
- Supervised various municipal works and modernization projects and performed line and grade surveys.
- Identified and resolved potential structural issues.

- Negotiating Contractors with external vendors to reach profitable agreements ☒
 - Collaborate with engineers to determine the specifications of the project
 - Hire Contractors and other staff and allocate responsibilities
 - Plan all construction operations and schedule the intermediate phase to ensure deadlines
 - Quality check.
 - Supervising and Inspecting labor work.
-

EDUCATION

- **Bachelor's : Civil Engineering Technology, 08/2022**
Isra University School of Engineering – Islamabad, Pakistan
 - **Diploma Of Associate Engineer: Civil Engineering, 08/2018**
Islamabad Institute of Technology – Islamabad, Pakistan
 - **Matriculation: Science, 2015**
Federal Board of Intermediate & Secondary Education – Islamabad
-

INTERSETS

- Cricket
 - Traveling
 - Explore new culture
 - Reading Books
 - Hiking
-

LANGUAGES

- English
 - Urdu
