

CURRICULUM VITAE

WAHEED KHAN (CIVIL ENGINEER)

waheedshinwari475@gmail.com
+923070725745

Seeking a junior-level position that offers opportunities for professional growth and hands-on experience in project management, structural design, and construction management within the civil engineering field. Eager to apply my theoretical knowledge and practical skills gained through academic training and practical experience in Civil Engineering to contribute effectively to a dynamic engineering team. complemented by certified training in Occupational Health and Safety (OHS). Adept at ensuring compliance with safety regulations while optimizing project efficiency.

EDUCATION AND CERTIFICATION

B.TECH CIVIL ENGINEERING TECHNOLOGY

University of Engineering and Technology Peshawar
2019-24

DAE CIVIL ENGINEERING TECHNOLOGY

Capital College Peshawar, KPBTE
2016-19

OCCUPATIONAL HEALTH AND SAFETY (OHS)

Civil Defence Training School ,Peshawar 2025

EXPERIENCE

Site Civil Engineer | Saif Group | Peshawar, Pakistan | February 2022 -March 2025

- Conducted regular site inspections to ensure compliance with construction plans and specifications.
- Reviewed and analyzed shop drawings for building components to ensure accuracy and adherence to design requirements.
- Coordinated with architects, structural engineers, and other disciplines to effectively address and resolve site issues.
- Enforced Occupational Health and Safety (OHS) protocols on-site, conducting routine safety audits and training workers on hazard mitigation, PPE compliance, and emergency procedures.
- "Reduced workplace incidents by implementing proactive safety measures aligned with international OHS standards
- Proactively monitored construction progress to identify and mitigate potential problems early on.
- Performed rigorous quality control and inspection of materials and construction techniques to maintain high standards.
- Managed and reviewed subcontractor work related to structural elements, ensuring timely delivery and quality.
- Prioritized safety on the construction site by implementing and coordinating safety measures.
- Maintained detailed documentation of site activities and records for accurate tracking and reporting.

Office Work

- Prepared comprehensive construction drawings and specifications for Different Projects.
- Reviewed and approved structural submittals from contractors and suppliers to ensure compliance with design requirements.
- Actively participated in project planning and scheduling, contributing to efficient project execution.
- Accurately estimated construction costs for structural components, supporting informed decision-making.
- Researched and evaluated emerging construction materials and technologies to identify potential applications and benefits.

- Prepared informative reports and presentations on project progress and design decisions to keep stakeholders informed.
- Maintained open and effective communication with clients and stakeholders, fostering strong relationships and trust.

TECHNICAL SKILLS

- **Construction Materials:** Deep understanding of the properties, applications, and performance of various construction materials, including concrete, steel, and timber.
- **Surveying:** Skilled in utilizing surveying equipment Like, Autolevel etc and Other techniques to accurately measure land and structures, ensuring precise project execution.
- **Safety Compliance OSHA/ISO standards:** hazard analysis, emergency response planning, construction site safety management.
- **Project Management:** Proven ability to effectively plan, schedule, and manage construction projects, optimizing resources and meeting deadlines.
- **Computer-Aided Design (CAD):** Proficient in using industry-standard CAD software Such as AutoCad and Revit for drafting, design, and visualization of construction plans.
- **Structural Analysis:** Skilled in analyzing structural loads, stresses, and deformations using specialized while making Decsion With Senior As per Site for project to avoiding barriers in execution and ensuring the structural integrity of buildings.

SOFT SKILLS

- **Problem-Solving:** Proven ability to identify and effectively resolve complex engineering challenges.
- **Leadership:** Demonstrated leadership skills, including the ability to motivate and inspire teams, delegate tasks, and manage project resources efficiently.
- **Communication:** Excellent communication skills, both written and verbal, enabling effective interaction with clients, team members, and stakeholders.
- **Attention to Detail:** Meticulous attention to detail ensures accuracy, quality, and adherence to project standards.
- **Adaptability:** Ability to adapt to changing project requirements and work environments, demonstrating flexibility and resilience.
- **Teamwork:** Strong collaborative skills, fostering effective teamwork and cooperation with colleagues from various disciplines.

ACCOMPLISHMENTS

As a Civil Engineer, I have consistently achieved significant accomplishments throughout my career, contributing to the development of sustainable and innovative infrastructure solutions. Some key achievements include:

- **Successful completion of large-scale infrastructure projects:** Played an essential role in the design, construction, and maintenance of major transportation networks, buildings, and water resources systems, ensuring their functionality and durability.
- **Implementation of sustainable engineering practices:** Incorporated environmental friendly solutions into projects, promoting energy efficiency, waste reduction, and resource conservation.
- **Enhanced on-site safety culture:** Through OHS-certified practices, reducing reportable incidents by 75%.
- **Optimization of project costs and timelines:** Employed effective project management techniques to streamline processes, reduce costs, and deliver projects within established timelines.
- **Enhancement of public safety and well-being:** Designed and implemented infrastructure solutions that prioritize safety standards, accessibility, and community needs.
- **Contribution to technological advancements:** Stayed abreast of industry trends and incorporated innovative technologies to improve project efficiency and sustainability.
- **Recognition and awards:** Received accolades and awards for outstanding contributions to the field of civil engineering, demonstrating expertise and leadership.

LANGUAGES

- **English:** Fluent
- **Urdu:** Expert level
- **Pashto:** Expert level
