About Myself

- I am a civil Engineering Graduate from National University of Technology (NUTECH). I have a strong foundation in civil engineering basics. I am disciplined and eager to get technical knowledge and hands on experience that allow me to master any technical and digital skills effectively and contribute meaningfully to your team.

EDUCATION

National University Of Technology (NUTECH)

Bachelor's in civil engineering

- Cumulative GPA: 3.23/4.00

Islamabad, Pakistan

November 2021- July 2025

Punjab Group Of Colleges

- Intermediate in Pre-Engineering

Okara, Pakistan

September 2018 – April 2020

Army Public School

- Matric

Okara, Pakistan

March 2016 – July 2018

INTERNSHIP EXPERIENCE

Army Directorate Housing GHQ, Rawalpindi

Rawalpindi, Pakistan

Site intern

July 2024 – August 2024

- Worked on inspection of the residential building projects at different sites.
- Formation of bar-bending schedules, conducting Site inspections , Site execution, Conducting Slump Test for Slab pouring, column alignments, inspection of Water Tank Steel and concrete pouring, conducting tests for compressive strength of concrete.

PROJECTS

ICAT: Rain Water Harvesting

This project includes the process of collecting and storing rainwater for reuse, reducing dependence on groundwater. This eco-friendly method helps conserve water, recharge aquifers, and mitigate urban flooding.

Final Year Projects: Modeling Traffic flow at Intersection using PTV VISSIM

This project involves simulating and analyzing traffic flow and proposing alternative solutions to reduce congestion and vehicle idles time.

SKILLS

- AUTOCAD
- Primavera scheduling
- REVIT
- Planswift for Quantities
- Microsoft Excel
- Bar bending Schedules
- Quality assurance
- PTV VISSIM
