

MUHAMMAD UZAIR

(+92) 03475938746 ◊ Wah Cantt, Pakistan

muhammaduzair120903@gmail.com ◊ [linkedin.com/in/muhammaduzair120903](https://www.linkedin.com/in/muhammaduzair120903)

OBJECTIVE

A motivated Civil Engineering graduate with hands-on experience gained through multiple internships in the construction industry. Skilled in using technical and project management tools, with a strong interest in both engineering and management roles. Eager to contribute to dynamic teams, grow professionally, and take on real world challenges in infrastructure development.

EDUCATION

BE Civil Engineering, Military College of Engineering (NUST), Risalpur Cantt. 2021 - 2025
Final grade: 3.14

Intermediate, Army Public School and College Ordnance Road, Rawalpindi. 2019 - 2021
Final grade: 92.36%

SKILLS

Technical Skills

- Autodesk AutoCAD
- Primavera P6
- CROPWAT
- Autodesk Revit
- MATLAB
- CLIMWAT
- ETABS
- ArcGIS

Soft Skills

- Communication Skills
- Team Work
- Problem-Solving
- Decision Making

EXPERIENCE

Intern Jun 2024 - Jul 2024
Defense Housing Authority Islamabad-Rawalpindi (DHAI-R) *Islamabad, Pakistan*

- Learned about bridge construction, gaining exposure to structural and foundation work.
- Assisted in the construction of roads, mosques, and earthwork, understanding the different challenges in each type of infrastructure project presents.
- Participated in lab testing of materials, contributing to quality control processes.
- Observed golf course construction activity during the internship, gaining exposure to diverse construction environments.

Intern Jul 2023 - Aug 2023
Military Engineer Services (MES) *Rawalpindi, Pakistan*

- Contributed to the construction of residential flats, gaining exposure to project execution and the use of construction materials.
- Worked closely with engineers to understand construction sequencing, and the application of engineering principles in real-world settings.
- Gained insight into site management and coordination of resources.

Intern Aug 2022 - Sep 2022
Frontier Works Organization (FWO) *Islamabad, Pakistan*

- Gained practical knowledge in the construction of residential flats.
- Observed the execution of structural work, including foundation and superstructure processes.
- Learned about site management and the importance of safety measures on construction sites.

PROJECTS

Structural Health Monitoring (SHM) Using Ag-coated Nylon Fibers. Developed an innovative Structural Health Monitoring (SHM) system utilizing silver-coated nylon fibers to detect structural changes and potential failures. Conducted experimental analysis and data interpretation to enhance real-time monitoring and durability assessment of civil structures.

Research on FRP Composite Solutions for Waterfront Pier Strengthening. Investigated the use of Advanced Fiber-wrap Composites (FRP) for structural rehabilitation of waterfront piers. Analyzed a case study of the San Diego Harbor pier, assessing repair methodologies, corrosion protection, and durability enhancements in harsh marine environments.

House Design Project (Revit). Designed a detailed residential house model using Revit, incorporating architectural and structural elements. Focused on 3D modeling, material selection, and realistic visualization to enhance design efficiency and accuracy.

Commercial Building Project (Primavera P6). Used Primavera P6 to create a project plan for a hypothetical commercial building. To replicate actual project management situations, a thorough schedule, resource allocation plan, and critical path analysis were developed.

EXTRA-CURRICULAR ACTIVITIES

- Organized a university blood donation drive; volunteered on-site and coordinated with healthcare professionals to ensure smooth operations, demonstrating teamwork and communication skills. Apr 2022
- Served as Senior Gentleman Cadet of my civil engineering course, demonstrating leadership, discipline, and peer mentorship. Dec 2021 - March 2025
